

## **SB 100 – Where Are We Now**

Transforming School Discipline Collaborative (TSDC)

**One week ago, more than 150 dedicated leaders came together for a day of learning about SB100 and continued efforts to improve school discipline for Illinois students.** Attendees represented a diverse array of stakeholders: young people, policy experts, school administrators, and researchers, among others. All were part of a unique dialogue that examined the successes and challenges of SB100 and the work that lies ahead.

Presentation materials and other resources from the convening can now be found [on our website](#). More information on Loyola University Chicago's Certificate in School Discipline Reform can be found [here](#).
