

# Daily Health Screening

Last updated August 19, 2022

All **students and employees** should use this screening tool to decide if they should attend school or report to work. **Please stay home if you are sick.**

**If you test positive for COVID-19, please stay home and contact your school nurse or supervisor as soon as possible.**

*Please note: Persons who have had recent confirmed or suspected exposure to an infected person are recommended to wear a mask for 10 days around others when indoors and to seek testing 5 days after exposure (or sooner, if they are symptomatic).*
