### **Movement**

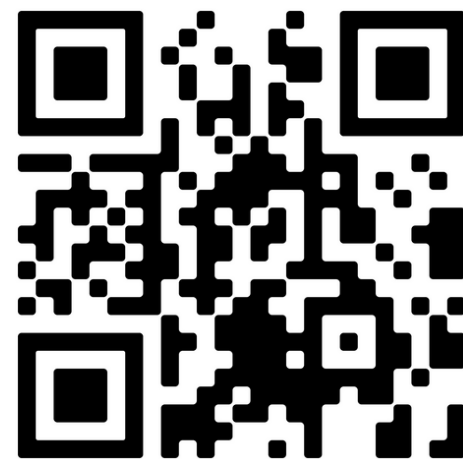

**Mondays**

**2:15 - 2:45**

- music, movement, & imagination
- prop & instruments in every class
- cognitive, communication & physical skills

September 12 - December 12

\$212 or \$54/month

**ArtsAliveInc.com**

**since 1994**

**713-699-9933**

## Incorporate the arts

The arts are much more than painting and drawing. There is music, dance, drama, literature, and theatre. Each concept explores one's imagination. Our classes incorporate music, a variety of physical activities, and imagination exploration.

**This is Education through Imagination.**

## Story-based lessons

Each lesson is taught through a creative story that is set to a playlist. We dramatize the story through concepts of movement, drama, and communication. Each song involves different physical, social, and cognitive skills. Through purposeful play, the students engage in the story as they move.

## Critical thinking

While we dramatize the lesson, students communicate with each other and the teacher. Each conversation creates opportunities for curiosity and decision-making. As they move and communicate, they continually engage in problem solving and cognitive processing.

## Bring to life

Incorporating the arts through storytelling, movement and creativity, we bring the arts to life. We **ignite the Joy** in our students. **We are Arts Alive!**
