Follow That Map! A First Book of Mapping Skills

Scot Ritchie

Kids Can Press Ltd (February 1, 2009)

Summary:

Maps are about far more than getting from a to b. Maps can help children understand and explore both their everyday environment and faraway places. With an appealing search-and-find technique, Follow That Map! is an interactive picture book that explains and demonstrates key mapping concepts. Kids will enjoy following Sally and her friends as they search for Max and Ollie, a mischievous dog and cat on the lam from the backyard. Sally and friends take an imaginative trip through the neighborhood, city and country, around the world and beyond. Kids can join in the search for Max and Ollie, who are hiding somewhere in every map. An activity at the end of the book shows children how to make a map of their bedroom.

Summary:

The Cat in the Hat introduces beginning readers to maps—the different kinds (city, state, world, topographic, temperature, terrain, etc.); their formats (flat, globe, atlas, puzzle); the tools we use to read them (symbols, scales, grids, compasses); and funny facts about the places they show us (“Michigan looks like a scarf and a mitten! Louisiana looks like a chair you can sit in!”).
