

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The Trinity Area School District is actively examining student performance factors such as classroom academics, performance on standardized assessments, attendance, participation and behavioral data. The staff did and will continue to analyze students' scores which are

ongoing formative, summative and standardized assessments/tests to determine the presence and depth of academic learning gaps, associated with or resulting from the manner in which instruction was delivered due to the pandemic. The data will be compared with data from non-pandemic years. This comparison will provide an accurate depiction of the learning gap for all students. Parents, guardians and students may also request to be included in the summer school program. The special needs students may qualify for ESY programs and the summer school program, depending on the level of need, and input from the IEP team. All of the students will be assessed by administration, teachers, counselors, parents/guardians and social workers/licensed therapists to determine if the students need to be included in the summer school program.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- 2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Academic Growth	650	Students will be assessed to provide benchmark/baseline academic levels. The students will complete prescriptive academic activities and then they will demonstrate their mastery of academic standards at the conclusion of the summer school activities. Progress monitoring by the case managing teachers will be a major component to determine program effectiveness and positive impact.
			Students will be assessed to provide benchmark/baseline academic levels. The students will complete prescriptive academic activities and then they will demonstrate

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	1,360	their mastery of academic standards at the conclusion of the summer school activities. Progress monitoring by the case managing teachers will be a malor component to determine program effectiveness and positive impact.
English Learners	Academic Growth	25	Students will be assessed to provide benchmark/baseline academic levels. The students will complete prescriptive academic activities and then they will demonstrate their mastery of academic standards at the conclusion of the summer school activities. Progress monitoring by the case managing teachers will be a malor component to determine program effectiveness and positive impact. Additionally, the parents were and will be invited to school to share in the programming and to celebrate the successes.
			Students will be assessed to provide

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Students Experiencing Homelessness	Academic Growth	28	benchmark/baseline academic levels. The students will complete prescriptive academic activities and then they will demonstrate their mastery of academic standards at the conclusion of the summer school activities. Progress monitoring by the case managing teachers will be a major component to determine program effectiveness and positive impact. Additionally, the parents were and will be contacted periodically by school personnel to check on living conditions and to offer supports in the academic and affective realm.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

All of the students will participate in a formalized progress monitor. This will be applicable to regular education students as well as special needs students. Student engagement for all students is required. All K-12 students have access to technology as we are 1-to-1 in K-12. The district is providing hotspots and various forms of remote connectivity to all students based on needs. The district is conducting an audit of curriculum K-12. The purchase of a Learning Management System, new curriculum and instructional resources which are aligned with the standards have been purchased as well. This will make certain the students will have equal access to a challenging curriculum and academic experience. The staff has been exposed to effective staff development and additional trainings in the area of curriculum and the usage of state of the art technology. The programs are efficient and effective, as they

include benchmark assessments and a clear scope and sequences, and identified learning targets. We are focusing on inclusionary instructional practices as well. The district collects periodic survey information which provides satisfaction, effectiveness and feedback for potential areas of deficiency or improvement. The distribution of grades will be examined and the level of students identified as requiring additional support will be identified as well. The district intends on eliminating all barriers to learning and student achievement. The survey data has been extremely positive in the area of academic success and the opportunities to learn.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
32	Internal Provider	Instruct students in academic subjects
4	Outside Provider	Licensed therapists to work with students in-person and remotely.

**a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.**

**b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.**

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Progress monitoring and individual summative assessments	2 times during summer school sessions	Demonstrate mastery or level of proficiency in regard to academic standards.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
IXL	Daily	Demonstrate mastery or level of proficiency in regard to academic standards.
Reading Eggs	Daily	Demonstrate mastery or level of proficiency in regard to academic standards.
Reflex Math	Daily	Demonstrate mastery or level of proficiency in regard to academic standards.
Math Expressions and Journeys Materials	Daily	Demonstrate mastery or level of proficiency in regard to academic standards.
Edmentum 6-12	Daily	Demonstrate mastery or level of proficiency in regard to academic standards.

6. How will the LEA engage families in the summer school program?

All parents/guardians were contacted to offer the summer school program. Special emphasis was placed on traditionally underserved and underperforming students. The ESL families were invited to school to witness and understand the programs in which their children were participating. The plan is to expand bringing the families into the building for the purpose of familiarity with the academic programming and demonstration of student mastery of academic standards. The connectivity with the teacher and program will improve.

**Section: Budget - Instruction Expenditures**

Instruction Expenditures

**Budget**  
 \$43,051.00  
**Allocation**  
 \$43,051.00

**Budget Over(Under) Allocation**  
 \$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$25,000.00	Salaries for teachers and administration of the summer school program.
1200 - SPECIAL PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$15,051.00	Salaries for teachers and administration of the summer school program for Chapter 14, 15 and 16 students.
1200 - SPECIAL PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$3,000.00	Licensed therapist services
		<b>\$43,051.00</b>
