

"Slowly, Slowly, Slowly," Said the Sloth

Eric Carle

Scholastic Incorporated (2002)

Summary:

Overview: Slowly, slowly, slowly ... that's how the sloth lives. He hangs upside-down from the branch of a tree, night and day, in the sun and in the rain, while the other animals of the rain forest rush past him. "Why are you so slow? Why are you so quiet? Why are you so lazy?" the others ask the sloth. And, after a long, long, long time, the sloth finally tells them! Set in the lush world of the tropical rain forest, this original picture book is an exquisite showcase of Eric Carle's colorful collage art-with a meaningful message: Slow down! Take time to enjoy your world. Challenged by the other jungle animals for its seemingly lazy ways, a sloth living in a tree explains the many advantages of his slow and peaceful existence.

David A. Adler

Holiday House (1998)

Summary:

When Amelia Earhart was eleven, she saw her first airplane. At the time she thought it was "not at all interesting." Despite this beginning, Amelia would go on to become one of the most famous aviators of her day. Never conventional, she grew up playing football and later studied automobile-engine repair. But she was planning a career in medical research, when on Christmas Day, 1920, she took her first plane ride -- a ride that changed her life. She bought her first plane the following year, and by 1928 became the first woman to fly across the Atlantic Ocean. Amelia Earhart went on to have many more flying adventures, but perhaps her best known flight is the one from which she never returned. ♥ Action Jackson

Jan Greenberg and Sandra Jordan

Macmillan (April 17, 2007)

Summary:

One late spring morning the American artist Jackson Pollock began work on the canvas that would ultimately come to be known as Number 1, 1950 (Lavender Mist). Award-winning authors Jan Greenberg and Sandra Jordan use this moment as the departure point for a unique picture book about a great painter and the way in which he worked. Their lyrical text, drawn from Pollock's own comments and those made by members of his immediate circle, is perfectly complemented by vibrant watercolors by Robert Andrew Parker that honor his spirit of the artist without imitating his paintings. A photographic reproduction of the finished painting, a short biography, a bibliography, and a detailed list of notes and sources that are fascinating reading in their own right make this an authoritative as well as beautiful book for readers of all ages. Action Jackson is a Sibert Honor Book, a New York Times Best Book of the Year, and a Publishers Weekly Best Book of the Year.

♥ Ada Twist, Scientist

Andrea Beaty

Abrams (September 6, 2016)

Summary:

A #1 New York Times Bestseller A Wall Street Journal Bestseller A USA Today Bestseller The creators of the New York Times bestselling picture books Rosie Revere, Engineer and Iggy Peck, Architect are back with a story about the power of curiosity in the hands of a child who is on a mission to use science to understand her world. Ada Twist, Scientist, from powerhouse team Andrea Beaty and David Roberts, is a celebration of STEM, perseverance, and passion. Like her classmates, builder Iggy and inventor Rosie, scientist Ada, a character of color, has a boundless imagination and has always been hopelessly curious. Why are there pointy things stuck to a rose? Why are there hairs growing inside your nose? When her house fills with a horrific, toe-curling smell, Ada knows it's up to her to find the source. What would you do with a problem like this? Not afraid of failure, Ada embarks on a fact-finding mission and conducts scientific experiments, all in the name of discovery. But, this time, her experiments lead to even more stink and get her into trouble! Inspired by real-life makers such as Ada Lovelace and Marie Curie, Ada Twist, Scientist champions girl power and women scientists, and brings welcome diversity to picture books about girls in science. Touching on themes of never giving up and problem solving, Ada comes to learn that her questions might not always lead to answers, but rather to more questions. She may never find the source of the stink, but with a supportive family and the space to figure it out, she'll be able to feed her curiosity in the ways a young scientist should. Iggy Peck and Rosie Revere have earned their places among the most beloved children's characters, and they have inspired countless kids and adults to follow their dreams and passions. Now in her own charming and witty picture book, determined Ada Twist, with her boundless curiosity for science and love of the question "Why?," is destined to join these two favorites. The book is the perfect tool to remind both young girls and women that they have the intelligence and perseverance to achieve their dreams.

Coming Home

From the Life of Langston Hughes

Floyd Cooper

Penguin (1998)

Summary:

Young Langston Hughes was a dreamer. He dreamed about heroes like Booker T. Washington, who was black just like him. When he heard the clackety-clack of train wheels, he dreamed about the places it had been. But most of all, he dreamed about having a happy home. And so, one day, he began turning those dreams into beautiful prose. As he did, he discovered where his home really was--in the words and rhythms of his poetry that reached people all over the world. The beloved Langston Hughes comes to life in a book for poets, dreamers, children, and adults--anyone who has ever thought of what home means to them. "Teachers looking for a good way to introduce youngsters to this prominent poet will find this book to be an excellent accompaniment to his work." --School Library Journal "Like Hughes' poetry, the power of Cooper's story is that it confronts sadness even as it transcends it." --Booklist "His text is as inviting as his illustrations." --The New York Times Book Review

Summary:

In this third and final Ralph S. Mouse novel from Newbery Medal–winning author Beverly Cleary, Ralph heads to school to see what humans do all day . . . and to discover what the "S" in Ralph S. Mouse stands for! With his rowdy cousins constantly wearing out his motorcycle and the Mountain View Inn manager threatening to take care of the mouse infestation once and for all, Ralph decides it's time to get away for a while. He convinces his human friend Ryan to take him along to school, where Ralph instantly becomes the center of attention. But when Ryan's class decides to see how smart Ralph is by making him run a maze, the usually confident mouse starts to fret. What if he's not as clever as he thought? Ralph S. Mouse is perfect for independent reading or for shared reading at home or in a classroom. This fun story is the third of a trilogy, along with *The Mouse and the Motorcycle* and *Runaway Ralph*, all inspired by the author's hope to create appealing books for boys and girls—and by the sight of her son playing with toy cars.

♥ Rosie Revere, Engineer

Andrea Beaty

Harry N. Abrams (September 3, 2013)

Summary:

Rosie may seem quiet during the day, but at night she's a brilliant inventor of gizmos and gadgets who dreams of becoming a great engineer. When her great-great-aunt Rose (Rosie the Riveter) comes for a visit and mentions her one unfinished goal—to fly—Rosie sets to work building a contraption to make her aunt's dream come true. But when her contraption doesn't fly but rather hovers for a moment and then crashes, Rosie deems the invention a failure. On the contrary, Aunt Rose insists that Rosie's contraption was a raging success: you can only truly fail, she explains, if you quit. From the powerhouse author-illustrator team of Iggy Peck, Architect comes Rosie Revere, Engineer, another charming, witty picture book about believing in yourself and pursuing your passion. Praise for Rosie Revere, Engineer "Comically detailed mixed-media illustrations that keep the mood light and emphasize Rosie's creativity at every turn." —Publishers Weekly "The detritus of Rosie's collections is fascinating, from broken dolls and stuffed animals to nails, tools, pencils, old lamps and possibly an erector set. And cheddar-cheese spray." —Kirkus Reviews "This celebration of creativity and perseverance is told through rhyming text, which gives momentum and steady pacing to a story, consistent with the celebration of its heroine, Rosie. She's an imaginative thinker who hides her light under a bushel (well, really, the bed) after being laughed at for one of her inventions." —Booklist Award 2013 Parents' Choice Award - GOLD 2014 Amelia Bloomer Project List
