Northshore School District Equity Handbook

"Intersectional Diversity Flower" Created by Aya Thomas

You may wonder how to go about successfully **practicing** the criteria that is listed under each domain in the Equity Inventory. This Equity Handbook serves to provide you with culturally responsive strategies and resources to start or continue engaging in that process. Resources are hyperlinked.

Note: The words "diverse" and "diversity" consistently appear in the Equity Inventory and Handbook, so the above "Intersectional Diversity Flower" is included to prompt you to think about what types of diversity are referred to in each domain and culturally responsive practice. As you can see in the Flower, race is a consistent intersecting factor with, between, and across each petal; so, in thinking about the diverse populations and communities within your school or the district, we ask you to think about 1) the ways that race intersects with the identities represented on each petal and 2) the intersectionality that occurs within and across each identity petal.

DOMAIN ONE: GOVERNANCE, POLICY, PRACTICE, AND SELF REFLECTION
