

WHAT IS P-TECH?

Pathways in Technology Early College High Schools (P-TECH) provide students with a seamless path from high school, to post-secondary education, to employment. LaVega ISD's P-TECH Academy offers students the opportunity to earn a high school diploma and work credentials, including certifications and licenses, and education credentials, which include educational certificates, professional certificates, diplomas, and degrees. They also engage in work-based education at every grade level, such as internships, apprenticeships, or other forms of job training programs.

Students

Students gain the skills, experience and the credentials they need to secure their independence and a well-paying job.

P-TECH

P-TECH brings together students learning and employment.

Employers

Employers gain access to a pipeline of qualified job-ready candidates.
