

Scorekeeping Tutorial

SCORING CLINIC PREFACE

- This is a tutorial created to assist referees and high school scorers with CIF scoring procedures.
- Text describing **events** on the court will appear first.
- A score sheet will show **how to score** these events.

SCORING CLINIC PREFACE

- This PowerPoint format was created by Kevin Gould of North Carolina. The data was formatted by Bob Boese of Louisiana and edited by Rick Brown of Ohio. Jan Filip of California modified it for use in the training of CIF scorekeepers with the assistance of Lyle Wright and Diane Cranor.
- This presentation is the overall process of scoring a match, what to expect and how to guide the official scorer.

SCORING CLINIC PREFACE

A sample set is about to begin. To practice scorekeeping, have a blank scoresheet and a black (or blue) pen and a red pen at hand. The sample set covers a wide variety of potential set situations. The objective is to learn the proper procedures for recording set events. Many of the events described in this sample set rarely occur, and will realistically not happen in a typical set or match. The objective is to learn the proper procedure and how to apply it to the specific play rather than to expect your future sets to present similar situations.

SCORING CLINIC PREFACE

- As you go through the slides, you will see several text boxes like this one.
- These boxes will describe a situation, and you will be able to record the appropriate action on the scoresheet.
- In most cases, the box will disappear after a mouse click.
- Once the block fades, the proper action will appear on the scoresheet.
- In addition, the symbol below indicates that you should click on the arrow to advance.

SCORING CLINIC PREFACE

- The score sheet used in this clinic reflects the current model being used in California.
- However, referees will encounter scorers who are not well trained or who do not record information in the way shown here.
- Rather than emphasize how to score each set in this manner, the R2 will need to be flexible as long as the information entered on the score sheet is accurate.

REMEMBER

- If a number appears on the lineup sheet that isn't on the team roster (which must be submitted with **10 minutes** left in the timed warm-up), ***the scorer should inform the R2.***
- If the scorer hasn't received the lineups for both teams and it's approaching **2 minutes** remaining in the timed warm-up, ***the scorer should inform the R2.***

Double Check

- R2, scorer and libero tracker all compare the submitted line-up sheets to the score sheet and the Libero Tracking Sheet to verify that they show the same information.

REMEMBER

- If a coach does not include a libero number on the submitted lineup sheet, the team will not be able to use a libero for that set. The R2 should check the line up sheet . If the libero number is missing, verify with the coach that his/her team is not using the libero for that set. The R2 uses preventive officiating by asking the head coach if they intend to use the libero.

◆ NO LIBERO LISTED = NO LIBERO PLAYING

- The team may still use the libero for another set – but only if a libero number appears on the lineup sheet for that set.

58/6 means #58 substituted in and #6 left the court.

REMEMBER

- **The scorer should mark the scoresheet in three (3) places for every substitution:**
 - ❖ 1 – in the player individual points area: record “S” if the serving team substitutes or “Sx” if the receiving team substitutes followed by the player numbers – Incoming/Outgoing.
 - ❖ 2 - player number: slash the number of the player coming out of the set and enter the number of the player entering the set.
 - ❖ 3 – under “Substitutions”: slash the applicable number to show the total number of team substitutions used to that point.

REMEMBER

- Teams typically call time out when the other team is serving to try to halt the momentum and make adjustments.
- Scorer records “TX” in box score and also writes in the score at the time of the time out in the timeout box (calling team’s score first).
- A team gets only two time outs per set. The scorer should **tell the R2** and indicate to the R1 the number of time outs taken by both teams when a time out is called. If a third time out is called, the scorer should **inform the R2 immediately**.

REMEMBER

- If it becomes necessary to return to Server 1, the scorer changes to a red pen for the second time through the serving order. If a third time through the rotation becomes necessary, it will be done in black (or blue) again.
- The Official Scorer is part of the team with the R1, R2, Libero Tracker, Timer and Line Judges.
- *The score on the official score sheet is always considered to be the correct score!*
- If there is a discrepancy and the R1 or R2 has definite knowledge, the score sheet may be adjusted. If the issue cannot be resolved, the official score sheet is the final answer.
- The scorer shouldn't hesitate to ask the R2 for help if/when it is needed – any issues need to be fixed while they are small and still manageable.

**Have a successful
volleyball season**
