Re: Somerset County Vocational Technical High School (SCVTHS) – Share-time Students – C session

Students/Parents/Guardians:

The purpose of this letter is explain how Bridgewater-Raritan High School's (BRHS) move to a Rotating Drop Schedule will impact Share-time students overall schedule. With the change, BRHS students will no longer be able to take five (5) classes at the high school. Instead they will be enrolled in four (4). Because this is a major change, we collaborated with SCVTHS to provide an opportunity for our students to take an additional academic/elective class at SCVTHS. This class is beneficial for students in meeting their graduation requirements.

C session (afternoon) students attend their SCVTHS program from 12:09 – 2:15 PM. Students may now arrive early for an extra period to attend the academic course of their choice from 11:26 AM – 12:06 PM. Students will be transported from BRHS after lunch at 11:05 AM to SCVTHS to attend their SCVTHS additional class and then their SCVTHS program.

For students who have opted not to take an additional class at SCVTHS, they will be transported from BRHS at 11:45 AM.

Students with a BRHS science lab will not be impacted by the change in schedule. These students will attend their regularly scheduled science lab as it falls during the rotation. They will then be excused for lunch and picked up at either 11:05 to attend their additional SCVTHS class or remain until 11:45 AM when they will be picked up to attend their SCVTHS shop.

The chart on the following page displays transportation times. We understand that there will be a period of time in which both students and schools will adjust to the changes. Please feel free to contact your assigned School Counselor at either school and/or the BRHS Counseling Office with questions or concerns.
