Introduction

Pride in Excellence: Our Strategic Plan 2020 within Rochester Community Schools states that we will develop innovative, self-directed learners who think critically, communicate effectively and persevere to positively impact the world. We are committed to providing a safe, positive, and supportive learning environment for every student. The Student Code of Conduct is a cooperative effort of students, teachers, parents and administration that sets forth the rules and regulations that govern the students' involvement with the academic and social programs of Rochester Community Schools. All members of the school community will experience an environment where they are safe, valued, and respected.

It is important to note that each school community has an established set of positive student behavior expectations. The purpose of the Student Code of Conduct is to present guidelines for responsible student citizenship, and to provide a consistent, systematic approach to addressing violations of these expectations which may arise in the school setting. The immediate objective of school discipline is to allow for student growth in abilities, attitudes, and habits which are essential to the personal and collective learning environment. Restorative Practices will be utilized as a teaching method to repair harm, resolve conflict and restore positive community culture.

Additionally, Rochester Community Schools are bound by the requirements held within The Family Educational Rights and Privacy Act (FERPA) of 1974. FERPA is a federal law establishing an array of confidentiality rights for students and families. This law is required to be upheld by all school employees. Under FERPA, a school may not generally disclose personally identifiable information from a minor student's education records, including discipline and consequences, to a third party unless the student's parent has provided written consent.

The partnership between home and school is vital in the development of each student. Parents should review this code with their student(s). Parental knowledge and cooperation in following the guidelines set forth in this Student Code of Conduct will help to sustain an exceptional learning environment for every student.

Proactive Measures

School administrators should take necessary action to assist the student to modify inappropriate behavior prior to the use of punitive measures. Such corrective measures may include, but not be limited to the following:

- Counseling by school personnel
- Parent/student/teacher conference
- Referral to a building special services team for evaluation
- Recommend consideration of a health examination and evaluation
- Recommend consideration of outside services, public or private
- Detention
- Transfer to other rooms or classes within the building
- Involvement in a school or community intervention program if available
- Restorative Practices:
 - Restorative Circle including necessary parties involved in the disciplinary incident.
 - A Restorative Practices disciplinary plan created through collaboration between necessary parties in order to repair harm, educate and resolve conflict in the learning community.
- Loss of activity privileges
 - Building administrators may suspend students from participating in or being present at extracurricular activities.
 - Sponsors of activities, including coaches, have full authority to determine who shall be participants in a given situation, but they may remove a student from a given activity only on the basis of predetermined rules which have been approved by the principal or appropriate administrative personnel. Parents and students are to be made aware of school rules or regulations affecting specific activities prior to the beginning of the activity.
 - Students under school suspension shall refrain from entering upon school property without prior permission from school authorities.
 - Students under suspension shall not participate in or be present at school functions.
 - Nothing in this policy is intended to limit a teacher or sponsor in exercising authority requiring a student to leave a particular activity when that student's behavior violates Board policies or school rules. A report of misconduct of such a student and the action taken by the teacher or sponsor shall be reported to the appropriate school administrator at the earliest possible opportunity not later than the beginning of the next school day.

- Closed class

A closed class is the denial of the right to attend a class or classes on a temporary basis during a time when a matter of immediate concern is being resolved. Classes may be closed by a school administrator for a period not to exceed five (5) days. Permanent closing of a class(es) may result if all established school procedures fail to modify student behavior.

- A closed class may be imposed only after following the procedure applicable to short term suspension.
- The student will be notified by the proper administrator that a class or classes are closed, the reason therefore, and what must be done prior to his/her re-entry to the class.
- Parents of students having classes closed for a period in excess of one day will be notified by mail.
- A parent/student/administrator conference shall be held prior to permanent class closure.

- Social probation

At times, students become habitual discipline problems involving persistent disobedience and class disruption. When efforts to effect a change in behavior, including parent contact, have been tried and the student's behavior continues to disrupt the educational progress of others, it may be necessary to place the student on social probation. During the period of social probation, the student will be given assignments but will not be able to attend any RCS activities or events or be on any RCS property for the duration of the social probation.

- The student will be made aware of the "Social Probation" procedures, the reason for being considered for probation and the steps necessary for removal from probation and re-entry into the regular school program.
- A student may be placed on social probation only after following the procedure applicable to short term suspension.
- Written notice outlining the specific violations and the conditions of "Social Probation" will be forwarded to the student, parent, or guardian by mail prior to the actual placement.
- A committee made up of teachers, a counselor, and a school administrator shall be appointed by the principal/designee, to serve as a Social Probation Committee. The purpose of this committee is to monitor the progress of the student and to make recommendations as to future status. If the academic program is recommended, the student will follow a program similar to the following:
 - The student will be given one week's assignments, books, and supplies necessary to carry out the assignments and sent home for one week.
 - At the end of one week, an appointment will be made, at which time the student will bring in the finished work, meet with the teachers to be advised of necessary work, and be given the next week's assignments. The student will, in addition, be seen by the counselor, then be returned home for one more week.

- At the end of the second week, the student will return all completed work, along with a written explanation of why he or she should be allowed back into a regular program. The entire committee will meet to evaluate the work and to determine whether the student should return to school.
 - The student may be returned to a regular class schedule for an additional two-week probationary period or be required to return home for an additional two-week period.
 - If the student is returned to school for the probationary period, the committee shall meet at the end of the two weeks to evaluate the student's progress. The probation may be lifted or continued. In all cases where the probation is continued, or the student is returned home for an additional period, the parent and student shall be made aware of the rationale for such action. In cases where the committee feels it necessary, the process may be reinitiated.
 - Students will be given full credit for work completed and for credits earned during this period.
 - It may be necessary under certain circumstances to recommend additional support agencies to assist in effecting a desirable change during the period of "Social Probation."
 - A written record of all aspects of the case will be documented and will reflect all steps taken by the school.
- Teacher Imposed Suspension

The following Safe School Amendment was enacted by the Michigan Legislature and was effective as of July 5, 1999. Teacher suspension rights, the misconduct that warrants a teacher-imposed suspension is: Repeated failure by a student to follow classroom rules. The teacher-imposed suspension does not take the place of the Code of Conduct. Teachers will have the option to refer students to the office for disciplinary action by the administrator. The following procedures are to be followed by the teacher imposing the student suspension:

- The student will be sent to the office or designated area for supervision. *
- The teacher will report the suspension to the designated administrator.
- The teacher will contact the parent or guardian and schedule a conference to discuss the suspension. *
- The conference will be scheduled before or after school or during the teacher's conference or lunch hour.
- Whenever possible, a school counselor, school psychologist, or school social worker will be invited to attend the conference. *
- An administrator will attend the conference upon the request of the teacher or parent or legal guardian.
- The teacher will report the outcome of the conference to the designated administrator.
- The conference should be held prior to subsequent teacher-imposed suspensions.

- The student will be given missed class work or assigned homework upon his/her return from suspension.

* Required by the Michigan Compiled Law 380.1309. This policy does not diminish the due process rights under federal law of a student who has been determined to be eligible for special education programs and services.

Disciplinary Step System

The Disciplinary Step System is designed to:

- Provide for clearly stated, advance knowledge to all students, parents, and staff members of the course of action to be taken in handling disciplinary matters.

- Once a student is placed on The Step System, the student may move to succeeding steps for each subsequent occurrence of misconduct at administrative discretion. Steps assigned will be proportionate to the severity of the misconduct.
- Student placement on The Step System shall be reduced one step for each consecutive forty-five (45) school days at the high school level and thirty (30) school days at the elementary and middle school levels without misconduct requiring disciplinary action as described in this code.

Short Term Suspensions

A short-term suspension is the denial of a student's right to attend school. A short-term suspension may be one (1) to ten (10) school days.

- If an in-school suspension program exists, at the discretion of building administration, it may be utilized as an alternative to out-of-school suspension. If a student is serving an in-school suspension, the student is responsible for bringing his/her school work for the day and will receive credit for assigned work completed in this program. Students are expected to remain on task and be productive.
- Students serving suspensions will not be able to attend any RCS activities or events or be on any RCS property for the duration of the suspension.
- A principal or designee (hereafter "Building Administrator") has the authority to impose a short-term suspension based upon misconduct.

Procedures -Suspension of ten (10) school days or less.

- As a general rule, prior to any suspension of the student, the building administrator shall conduct an informal hearing and provide the student with the following due process:
 - The building administrator shall inform the student of the charges against him/her, and, if the student denies the charges, the administrator shall provide the student with an explanation of the evidence the administrator possesses.
 - The student shall be provided an opportunity to explain to the administrator his/her version of the facts.
- If a student's presence in school poses an immediate danger to persons or property or an ongoing threat of disruption to the educational process, the building administrator may immediately remove a student from school pending investigation, and as soon thereafter as reasonable, provide the student with his/her due process rights as set forth in the subparagraphs above.
- If, after providing the student with his/her due process rights, the administrator determines that the student has engaged in a prohibited act under this Student Code of Conduct, then he/she may impose a disciplinary penalty of a suspension not to exceed ten (10) days. The principal, or his/her designee, shall inform (in person or by phone) the student's parent/guardian of the suspension and of the reasons and conditions of the suspension.
 - A district "Notice of Suspension" is to be completed, with copies going to the parent/guardian, the counselor and the student's file.
- During a short term out-of-school suspension, the student will be given the opportunity to complete school assignments. The following conditions will apply:
 - A request for homework will be initiated by the building administration.
 - The student or parent has the responsibility for obtaining the assignments from the school.
 - The assigned homework must be completed and ready to turn in upon return date to school. Additional time may be granted by a building administrator and the teacher for extenuating circumstances.
 - Specific labs and activity-based assignments will be available to the students at the teacher's discretion. If unassigned, the lab or activity will not count against the student's grade.

Appeal Procedures

- Should the student and parent or guardian request a review for the student regarding the suspension, that review shall be held before the building administrator. During the appeal process, administrator has the right to remove student pending investigation. Appeals will be heard for placement at Steps 5-6. There is no review for placements at Step 1-4.
- If the building administrator decides that the student's presence in school would present a danger to the student her/himself, or to other students, school personnel or the educational process, then the student shall be suspended out of school pending the decision of the District Hearing Officer. If the student would not present a danger as described above, the student may be returned to school pending the decision of the District Hearing Officer.
- A review at the building level shall be held within three (3) school days of the suspension unless the parents request a delay. A delay may be granted for as long as one week. If a review hearing does not occur within a week, the disciplinary action will go into effect.
- The building administrator is the final level of appeal on short term suspensions, except in cases where the principal was the suspending administrator or a witness against the student. In such cases, the appeal shall be directed to the Discipline Hearing Officer or designee whose decision shall be final.

Recommendation for Long Term Suspension or Expulsion

A long-term suspension or expulsion is the denial of a student's right to attend school, be present on school grounds and attend any school function for a period in excess of eleven (11) or more school days. Students suspended for more than eleven (11) school days but less than thirty (30) school days may complete assignments for credit during the length of the suspension. Students suspended for longer than thirty (30) school days may obtain general course work, but it will not be graded for credit. Expulsion is the total and permanent exclusion of a student from the Rochester Community School District.

The District Hearing Officer, appointed by the Superintendent/designee, has the authority to impose a long-term suspension or an expulsion based upon misconduct.

Procedures -Suspension for eleven (11) or more school days and expulsion.

If the building administrator recommends a suspension for eleven (11) or more school days or expulsion is warranted and the district's District Hearing Officer, appointed by the Superintendent/designee, agrees with the administrator's decision, the student and the parent(s) or guardian(s) shall be notified in writing of:

- the charges against the student
- the recommended disciplinary action
- a hearing will be held before the District Hearing Officer as soon as practical with a goal of within ten (10) days
- the time, place, location and procedures to be followed at the hearing
- the right to appeal any decision of the District Hearing Officer if the District Hearing Officer upholds an expulsion recommendation.

Appeal Procedures

- A hearing before a District Hearing Officer will be held for the purposes of (1) determining the truth or falsity of the charges against the student and, (2) if the charges

are true, the appropriate disciplinary measures. The student and parents/guardians may be represented at the hearing by an attorney or other adult. Written or oral evidence may be presented at the hearing on behalf of the student.

- The student and/or his/her parent(s) or guardian(s) may notify the school district that they waive their right to a hearing before a Hearing Officer by signing the Disciplinary Hearing Waiver. In such case, the building administrator's recommended disciplinary penalty shall be imposed.
- The District Hearing Officer may amend the principal's charges upon motion of the building administrator, student, parent(s) or guardian(s), or amend the charges upon his/her own motion to conform to the evidence presented at the hearing. Additionally, the District Hearing Officer may impose a greater or lesser penalty than that imposed or recommended by the building administrator.
- If the building administrator decides that the student's presence in school would present a danger to the student her/himself, or to other students, school personnel or the educational process, then the student shall be suspended out of school pending the decision of the District Hearing Officer. If the student would not present a danger as described above, the student may be returned to school pending the decision of the District Hearing Officer.
- The District Hearing Officer's decision shall be given orally to the student and parent(s) or guardian(s) not later than two (2) business days after the close of the hearing. A written decision shall be mailed not later than four (4) business days after the close of the hearing. These timelines, however, may be enlarged by the Hearing Officer due to extenuating circumstances.
- The District Hearing Officer's decision shall be final on all long-term suspensions.
- If the District Hearing Officer's decision is expulsion, the student and/or his/her parent(s) or guardian(s) may appeal the District Hearing Officer's decision to the Expulsion Appeal Panel. To request an appeal, the student or parent(s), within five (5) days of receipt of the decision, must petition the Superintendent. The petition shall be in writing and contain the reasons that the decision should be reviewed.
- The Expulsion Appeal Panel will consist of three Board of Education Members and one Building Administrator from a High School, Middle School and Elementary School in which the student is not enrolled, along with the Superintendent or designee.
- The decision of the Expulsion Appeal Panel will be final on all expulsions.

Readmission after Long Term Suspension

- Following a long-term suspension, the student shall not be readmitted to any school within the Rochester Community Schools except by action of the Superintendent/designee. After the student's absence from school for the specified time, the student or, on his/her behalf, the parent or guardian thereof may seek readmission by applying to the Superintendent/designee. The Superintendent/designee may readmit the student if he/she can satisfactorily demonstrate that he/she has made a sincere effort at rehabilitation subsequent to the long-term suspension and will not represent a threat to the safety and welfare of the students of the Rochester Community Schools.
- The Superintendent/designee shall base his/her decision in part on the severity of the incident leading to the long-term suspension. The Superintendent/designee may further qualify readmission upon specified conditions, which he/she determines are appropriate. An application for readmission shall be filed with the Superintendent/designee prior to the term for which readmission is sought. If, as a result of the recommendation for long term suspension, the parents and/or guardian voluntarily withdraw the student from school, the student shall follow the readmission procedure applicable to the long-termed suspension student.
- If the student fails to uphold the specified conditions for readmission set forth during the readmission hearing, the Superintendent/designee's decision regarding the student's enrollment in Rochester Community Schools is final.
- The Superintendent/designee may also require restorative steps in order to re-establish community culture following the district's commitment to Restorative Practices.
