National School Choice Week

Held every January, National School Choice Week shines a positive spotlight on effective education options for every child. The goal of National School Choice Week (NSCW) is to **raise public awareness** of all types of education options for children. These options include traditional public schools, public charter schools, magnet schools, online learning, private schools, and homeschooling.

To meet this goal, NSCW encourages schools, organizations, and individuals to hold positive events that celebrate school choice options, while drawing attention to the need for even greater opportunities for children. With 16,140 events across America, National School Choice Week 2016 (January 24-30) will be the largest celebration of educational opportunity in U.S. history.

Falls Lake Academy is proud to celebrate National School Choice Week by encouraging families in our community to choose the educational opportunity that best meets their child’s needs. Our students and staff are proud to be part of Falls Lake Academy, a great choice for families seeking a college preparation learning environment!

STUDENT SPOTLIGHT

FLA Second Grade Students—

Our second grade students visited with the Mayor of Creedmoor earlier this year. During that visit, Mayor Moss took time to ask and answer some very important questions from our students. Mayor Moss thought deeply about his interaction with our second graders. This experience moved Mayor Moss to include his reflections about the engaging conversation about citizenship with our second graders in his annual State of the City Address . Mayor Moss stated “Starting in 1999 when I was first elected mayor, I give an annual address to review the previous year and look forward to the next.” Thank you Mayor Moss for your continued interest and support of the education of our young people. We are honored to be a part of the January 19th State of the City Address. If you would like to read his address, you can find it here: <http://www.cityofcreedmoor.org/Modules/ShowDocument.aspx?documentid=3018>
