

**Shawnee Mission School District
Bid 22-026 – HVAC Air Filters
August 29, 2022**

Addendum No. 1

The following response addresses a question submitted by a vendor on August 29, 2022; responses to the question are indicated in bold. If you feel that a question has not been addressed, please contact Reed Beebe at purchasing@smsd.org as soon as possible.

1. The ITB states that the HVAC air filters are to be shipped to various individual locations. The District would likely save on shipping costs if all filters could be labelled by site and shipped to one central location, such as a warehouse, for distribution by the District. Would the District be interested in such a shipping option?

Although the District has utilized such an approach in the past, at this time, the District's staffing and other constraints do not make this option feasible. The shipping process as outlined in the ITB is the desired distribution model for the air filters.
