Did you know Chisholm Elementary uses a School-Wide Positive Behavior Program?

How does our positive behavior program work?

Students are taught and encouraged to follow our school-wide P.A.W.S. Expectations. →

1. Students or classes that are caught in action following one or more of the expectations are awarded a Paw Point.
2. Points are tallied in each classroom on a tracking poster.
3. Once a class reaches the number of points required to meet the next award level, their class...
   a. is featured on the wall of fame in the cafeteria
   b. receives a shout out on the morning announcements
   c. is given a Paw Point Certificate to display in their classroom
4. Classes also receive a reward once they reach a new award level, such as extra recess time, a hat day, or a special lunch with administration.

Our goal is to explicitly teach positive behavior and then reward students once they put that behavior into action.
