Jerudong International School students motto is **“Togetherness and Community: Embracing Individuality and Unity.”** Central to this is our Polio Points reward system. Year 7 to 13 students are challenged to act in a way that goes beyond what we would normally ask of them to do. The reward system is based on our six student aims of Leadership, Resilience, Communication, Thinking, Engagement and Integration. They are then rewarded with a Polio Point (as part of the international End Polio movement) which directly contributes to a donation to UNICEF.

This ethos is integrated fully into our journey towards becoming a truly sustainable school community and the goal of becoming a [Green Flag Eco-School](#). Our aim is to ensure that in every area of the school we try to think more carefully about the impact that we are having on our own local community and in the world around us. Beyond this, we encourage the students to think beyond the school campus and look at how their actions can have global effects. The [Sustainable Development Goals](#) is a blueprint to achieve a more equitable, peaceful and sustainable world for everyone. The school aims to inspire our students to be socially responsible, global citizens equipped to deal with the challenges of the 21st century. We believe that this image above encapsulates our focus for every student and teacher in the Senior School.

Jerudong International School is committed to equality of opportunity for all staff, and applications from individuals are encouraged regardless of any of the protected characteristics of the 2010 UK Equality Act.
