

August 21, 2022

Dear Parent/Guardian,

Please be advised, the Princeton Public School Health and Safety Committee is currently enforcing Covid-19 return to play protocols that are recommended by the American Academy of Pediatrics.

Therefore, if your child tests positive for COVID-19 your student-athlete may begin to return to sports on the 6th day after receiving their positive test result assuming they have been fever-free for more than 24 hrs. The day they receive the test result will count as day 0. Please know that your child will be required to be universally masked from day 6 through 10 to ensure all symptoms have resolved. Your child must be free of any cardiac symptoms or findings.

Exercise tolerance will be established by a gradual return to full activities/athletics with careful attention to any development of respiratory or cardiac symptoms. Should your child ever test positive for COVID-19 please [CLICK HERE](#) to print a gradual return to play form and have it completed by your child's pediatrician.

The form will need to be returned to your child's coach so that they may begin a gradual return to play.

Sincerely,

The Princeton High School Athletic Department
