CLASSES 2019-2022 ACT

CLASSES 2019-2022 GPA

SCHEDULE

LRCAs use an eight period alternating block schedule. Each block is 80 minutes with four blocks a day, alternating between A and B days

BWV

Students learn the fundamentals of Christian doctrine as well as the foundations of church history and humanity's intellectual history. The goal is to understand, identify, and assess competing worldviews and philosophies. LRCAs desire to equip students in discerning truth and untruth in culture, academia, as well as their own lives and relationships.

J-TERM

Modeled after the collegiate January Term, "J-Term" is designed to increase learning opportunities for students. We offer classes and experiences not normally available, giving students an opportunity to learn in areas of passion, discover and develop their gifts, explore new ideas and skills, and consider where God may be leading them in their lives. The "block" nature of J-Term allows for focused, in-depth study and deeper relationships with teachers and a small group of students.

HARKNESS PEDAGOGY

Harkness learning is best characterized by student-centered discussions. Similar to Socratic Seminar, Harkness learning places a group of students and their instructor at the same table, charged with the collective tasks of inquiry and collaboration. However, Harkness differs from Socratic learning by placing the responsibility for questioning, evaluating, and contributing on the students. Ultimately, the goal of Harkness learning is to offer students an enhanced understanding of a shared text or artifact. The Harkness Method is employed in all BWV and English classes. Social studies and hard sciences also utilize Harkness to a degree.

CAPSTONE

Honors Senior Capstone is an independent research course designed to offer students the opportunity to pursue a course of study beyond the typical high school class. Students apply for the program in the spring of their junior year and draft a proposed course of study. Once a proposal is reviewed and accepted, students select a faculty adviser and begin to craft their next year of work. The purpose of Capstone is to introduce students to a collegiate model of research and prepare them to succeed in higher level, independent studies.
