• **SELECT LOCATION/DATE/TIME FOR EVENT**: If you already know the name of the location you would like to reserve, start typing the location name in the search field, and select the location. Otherwise, Click “Location Search” to select the location(s) needed for this event. If multiple locations are being used, ensure that all have been selected. Once selected, you will see the locations displayed in the top section. Click “Save”. To choose the date/time for your event, click the date of the event (if this is a recurring event, choose the first day of the event). If you need to block additional time for setup or breakdown, you can adjust those on the right side. Select the time you need by clicking on the appropriate start time on the calendar. Drag the time slot to be the appropriate length or double-click the time slot to manually enter the start and end times. *Note: Any times that are unavailable will show with a block marked Reserved. This means the time has been booked with another event.

If your event will repeat, click on the pencil icon next to “Multiple-Day Options”. *Note: This option will only appear after you have selected a time on the calendar.

• Choose between Consecutive Dates and Non-Consecutive Dates.
• If you chose Consecutive Dates, choose how often the event repeats, and when the event series ends. After choosing the event pattern, the Events in this Series will populate. Any necessary adjustments can be made here before saving, including the event name, date, or time of an individual event.
