

REEDLEY HIGH School

Student Transition Program

The Student Transition Program is here to guide, support, and empower parents to become proactive in the lives of their children. Extensive research shows that when parents are involved, students have higher grades, test scores, attendance rates, and higher self-esteem.

What Research Say

Several studies have found that schools with extensive transition programs had significantly lower failure and dropout rates than those schools that did not offer comprehensive programs. (National High School Center)

Community

The Student Transition Program is committed to supporting the transition by enhancing positive community connections within the city of Reedley, Orange Cove, and Dunlap by enhancing relationships between the students, school faculty, and the community.

STUDENT SERVICES

- Assisting students with the overall transition to high school
- Connecting students to site support, services, and resources
- Developing strategies to educate students on measuring their progress in both academic achievement and attendance tracking
- Empowering students to engage in the school culture by participating in Clubs, Sports, and Extracurricular activities

PARENTS SERVICES

- Guiding parents through the educational system
- Parent workshops
- Connecting parents to community services and KCUSD support

The Student Transition Program is committed to support the connection from middle school to high school by providing increased educational equity and access to academic, emotional, and social supports.
