Weather can cause changes. The office will announce any changes occurring on a given day.

There may also be issues with getting buses for the four away matches.

We will always start on the three courts facing the middle school gym and then send some players to the two courts by the Superintendent's Office.

This is designed to be fun, but it is a chance to experience being part of a team and to learn skills that prepare you for a sport you can play all of your life.

We will start practices as soon as you can get to the courts after school and practice until 4:15.
