Dear Parent/Guardian,

Our school health records indicate that your student has a milk intolerance. In the past we have required an MD order for dietary accommodations. South St. Paul Public Schools will now be requiring a "one-time only" parental request. Please complete this form and return it to the health office of the school your student attends. This form will be placed in your student's health record and this information will be shared with the Nutrition Services staff. If you have questions, please call the Student Nutrition Office at 651-457-9456.

STUDENTS WITH MILK (LACTOSE) INTOLERANCE

The responsibility of South St. Paul Public Schools is to provide substitutions for any student with lactose intolerance as specified in State Law 124D.144. Under this law, a school district that participates in the National School Lunch Program or Breakfast Program and receives a written request from a parent shall make available lactose-free milk. The school district is NOT required to make available any other substitutions, such as juice, based on lactose intolerance.

Please complete the following and mark one of the two choices below:

STUDENTS NAME _____

NAME OF SCHOOL _____

GRADE _____

- Lactose-free milk**
I would like my child to have lactose-free milk provided to them for the entire school year.
Please make sure your student will consume this product before requesting this option.
- No dietary substitution needed**
