

# CAREER EXPLORATION

## WITH SUMMIT HOMES

Summit Homes is excited to host an action-packed day of career exploration in the home building field. We'll dive into various career paths from construction management, engineering, marketing, architecture and more! You'll hear from multiple Summit Homes Team Members how they ended up in their roles, the education path they followed and the opportunities for you to do the same.

Who's Summit Homes? Summit Homes delivers a personalized, customer-centric home building experience by creating high-quality, innovative homes in the Kansas City and Des Moines areas. Our Berkshire-Hathaway backed team has built more than 3,000 homes since we began in 2002.
