

- **STOPit App - Secondary students** can use the **STOPit App** to make a report by following these steps:
 - Download the app from the App Store or Google Play and use the access code CHSdragons
 - Click on your “**STOPit**” app.
 - Make your report.

The Report button can be used to anonymously submit a report consisting of text, image(s), and/or video(s) to contacts from the organization who can respond to the incident and get help to individuals in need. The Messenger button provides anonymous two-way communication between app users and organization administrators. Additionally, organizations may make text or call resources available to app users via the Get Help feature, and may also send notifications to all app users via the Notifications feature.

- **Web-based Reporting** - This reporting method is available for **parents**. To make a web-based report, follow these steps:
 - Click on this link to make your report: [CHS STOPit](#)
 - **Note:** When using the online reporting system rather than the app, you will want to make note of the incident id and passcode. You will need these to follow up and receive a response. The browser will time out after 30 minutes of inactivity.

Please keep in mind, STOPit is not an emergency response service. If you believe your call requires immediate police, fire, or paramedic response, call 9-1-1. **STOPit** does not provide counseling or clinical advice. If you feel you need this type of attention, please seek the assistance of a qualified clinical or medical professional.
