WELCOME TO THE EXTRA CURRICULAR ACTIVITIES PROGRAM AT DUNECREST

“Extra-curricular activities are just as important as academics. They both complement each other to develop a well-rounded student with more social skills than one who only concentrates on their books.”

“Education should go beyond the four classroom walls; it should be more than just books.”

LANGUAGE EXTENSION PROGRAM

In Term 1, Dunecrest will be having our very own and amazing teachers lead the Language Extension Program for after school French and Spanish.

OUR MISSION

The Dunecrest Extra Curricular Program supports our school mission by providing a wide range of engaging activities for our students to discover their talents, pursue their passions, and make a positive impact on their communities and the world beyond.

Education should be a holistic experience where students can grow and learn in a multitude of ways. Our students are strongly encouraged to explore interests outside of the classroom curriculum. At Dunecrest, we endeavor to provide a variety of opportunities and we are constantly striving to offer a wide range of engaging activities within the ECA Program.

We understand that a successful ECA program should include activities that foster the development of children physically, artistically, socially, emotionally and academically while:

- Exploring their talents
- Developing leadership skills
- Building bonds with role models
- Improving their academic performance
- Having fun

All activities take place on the Dunecrest campus and are provided as follows:

Teacher-Led Extra Curricular Activities

Teacher-Led ECA's are offered by Dunecrest teachers at no charge (in some cases a minimal fee might be applicable for the purchase of relevant supplies).

Outside Provider Extra Curricular Activities

Outside Provider ECAs are delivered on the Dunecrest campus by Outside Providers that Dunecrest builds partnerships with, and fees are varied depending on each activity.
