

Key School engages children from 2.5 years of age through grade 12 in a progressive, coeducational, college-preparatory program on its picturesque 15-acre campus located 4 miles from downtown Annapolis.

## Why Key?

Key's innovative approach to teaching and learning is what sets us apart from other independent schools. Key is renowned for its rigorous academic program, which emphasizes inquiry-based learning and interdisciplinary studies, and produces unparalleled student outcomes, but students also experience meaningful connections, value and respect the differences of others, and have a positive outlook on learning and their future. A diverse, supportive, deliberately small community that values academic excellence and nurtures a love of learning is what makes Key School one of the most sought-after educations in Maryland.
