

STUDENT TECHNOLOGY, INTERNET USE, AND INTERNET SAFETY RULES

These rules accompany Board policy IJNDB (Student Technology, Internet Use and Internet Safety). Each student is responsible for his/her actions and activities involving school unit computers, laptops, or tablets issued to students, networks, and Internet services, and for his/her computer files, passwords, and accounts.

These rules provide general guidance concerning the use of the school unit's electronic devices and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by students. Students, parents, and school staff who have questions about whether a particular activity is prohibited are encouraged to contact the building principal or the Technology Director.

A. Acceptable Use

The school unit's electronic devices, networks, and Internet services are provided for educational purposes and research consistent with the school unit's educational mission, curriculum, and instructional goals. Incidental personal use is acceptable given that it does not interfere with educational activities.

All Board policies, school rules, and expectations concerning student conduct and communications apply when students are using devices, whether the use is on or off school property.

Students are also expected to comply with all specific instructions from school administrators, school staff or volunteers when using the school unit's devices.

B. Consequences for Violation of Electronic Devices Use Policy and Rules

Compliance with the school unit's policies and rules concerning technology use is mandatory. Students who violate these policies and rules may, after having been given the opportunity to respond to an alleged violation, have their device privileges limited, suspended, or revoked. Such violations may also result in disciplinary action, referral to law enforcement, and or legal action.

The building principal shall have final authority to decide whether a student's privileges will be limited, suspended or revoked based upon the circumstances of the particular case, the student's prior disciplinary record, and any other relevant factors.

C. Prohibited Uses

Examples of unacceptable use of school unit electronic devices that are expressly prohibited include, but are not limited to, the following:

1. **Accessing or Posting Inappropriate Materials** – Accessing, submitting, posting, publishing, forwarding, downloading, scanning or displaying

defamatory, abusive, obscene, vulgar, sexually explicit, sexually suggestive, threatening, discriminatory, harassing and/or illegal materials or engaging in “cyber bullying;”

2. **Illegal Activities** – Using the school unit’s electronic devices, networks, and Internet services for any illegal activity or in violation of any Board policy or school rules. The school unit assumes no responsibility for illegal activities of students while using school devices;
3. **Violating Copyrights** – Copying, downloading or sharing any type of copyrighted materials (including music or films) without the owner’s permission (see Board policy/procedure EGAD – Copyright Compliance). The school unit assumes no responsibility for copyright violations by students;
4. **Copying and Downloading Software** – Copying or downloading software without the express authorization of the Director of Technology. Unauthorized copying of software is illegal and may subject the copier to substantial civil and criminal penalties. The school unit assumes no responsibility for illegal software copying by students;
5. **Plagiarism** – Representing as one’s own work any materials obtained on the Internet (such as term papers, articles, music, etc.). When Internet sources are used in student work, the author, publisher, and website must be identified;
6. **Misuse of Passwords/Unauthorized Access** – Sharing passwords, using other users’ passwords, and accessing or using other users’ accounts;
7. **Malicious Use/Vandalism** – Any malicious use, disruption or harm to the school unit’s devices, networks, and Internet services, including but not limited to hacking activities and creation/uploading of technology viruses; and
8. **Unauthorized Access to Blogs/Chat Rooms/Social Networking Sites** – Accessing blogs, chat rooms or social networking sites to which student access is prohibited.

D. **No Expectation of Privacy**

RSU No. 5 and MLTI owned devices remain under the control, custody, and supervision of the school unit at all times. Students have no expectation of privacy in their use of school devices, including email, stored files, and Internet access logs.

E. Compensation for Losses, Costs, and/or Damages

The student and his/her parents are responsible for compensating the school unit for any losses, costs, or damages incurred by the school unit for violations of Board policies and rules while the student is using school unit devices, including the cost of investigating such violations. The school unit assumes no responsibility for any unauthorized charges or costs incurred by a student while using school unit devices.

F. Student Security

A student is not allowed to reveal his/her full name, address or telephone number, social security number, or other personal information on the Internet without prior permission from a teacher. Students should never agree to meet people they have contacted through the Internet without parental permission. Students should inform their teacher if they access information or messages that are dangerous, inappropriate, or make them uncomfortable in any way.

G. System Security

The security of the school unit's devices, networks, and Internet services is a high priority. Any student who identifies a security problem must notify his/her teacher immediately. The student shall not demonstrate the problem to others or access unauthorized material. Any user who attempts to bypass system security, causes a breach of system security, or fails to report a system security problem shall be subject to disciplinary and/or legal action in addition to having his/her device privileges limited, suspended, or revoked.

H. Additional Rules for Laptops and Tablets Issued to Students

1. Laptops and tablets are loaned to students as an educational tool and are only authorized for use in completing school assignments unless permission is given to a student by a teacher or parent to use the device for personal reasons.
2. Before a laptop or tablet is issued to a student, the student must sign the school's "acceptable use" agreement and parents must attend an informational meeting. Attendance will be documented by means of a "sign in" sheet. The meeting will orient parents to the goals and workings of the laptop program, expectations for care of school-issued laptops, Internet safety, and the school unit's rules in regard to use of this technology.
3. Students and their parents are responsible for the proper care of laptops and tablets at all times, whether on or off school property, including costs associated with repairing or replacing the laptop or tablet. RSU No. 5 offers a protection program for parents to cover replacement costs and/or repair costs for damages not covered by the warranty. Parents who choose

not to participate in the protection program should be aware that they are responsible for any costs associated with loss, theft, or damage to a laptop or tablet issued to their child.

4. Loss or theft of a laptop or tablet must be reported immediately to the Principal, and, if stolen, to the local law enforcement authority as well.
5. The Board's policy and rules concerning technology and Internet use apply to use of laptops and tablets at any time or place, on or off school property. Students are responsible for obeying any additional rules concerning care of laptops and tablets issued by school staff.
6. Violation of policies or rules governing the use of computers, or any careless use of a laptop or tablet may result in a student's device being confiscated and/or a student only being allowed to use the device under the direct supervision of school staff. The student will also be subject to disciplinary action for any violations of Board policies or school rules.
7. Parents are responsible for supervising their child's use of the laptop or tablet and Internet access when in use at home.
8. The laptop or tablet may only be used by the student to whom it is assigned and by family members.
9. Laptops and tablets must be returned in acceptable working order at the end of the school year or whenever requested by school staff.
