

How to Install Lockdown Browser for Chromebook

Student will use their login credentials to login.

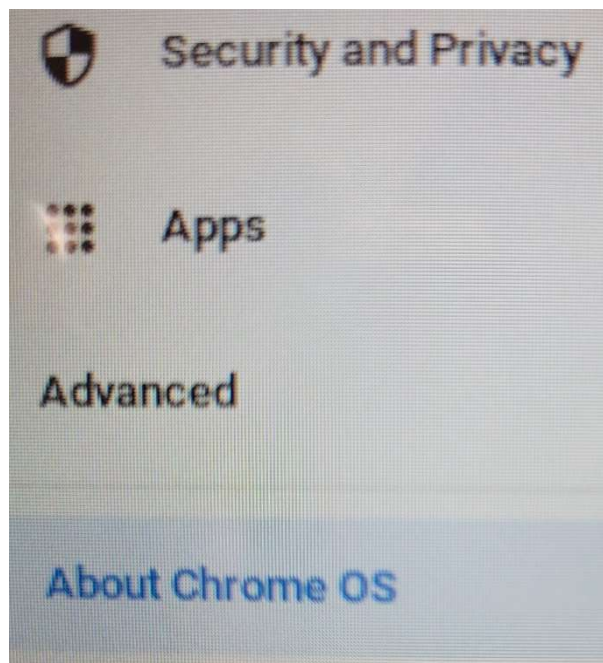

On the bottom right side is the clock, click on it to open the menu.

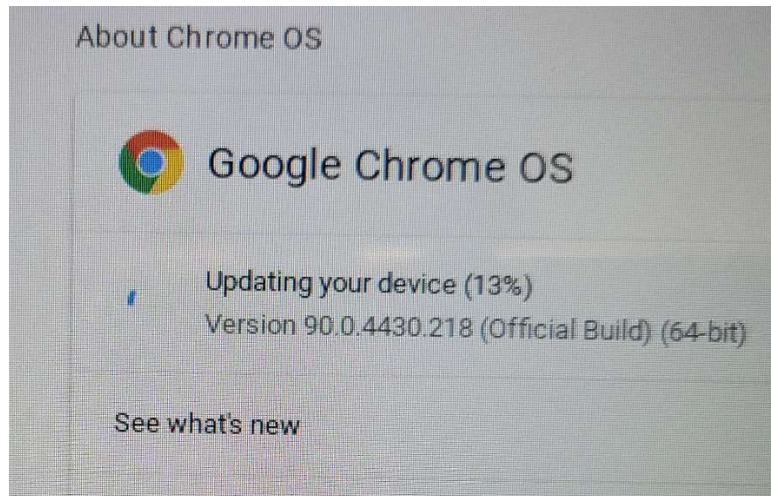

Then click on the gear to open the settings. (note: if you are now able to open the settings, see Mr. Daza in room C-101)

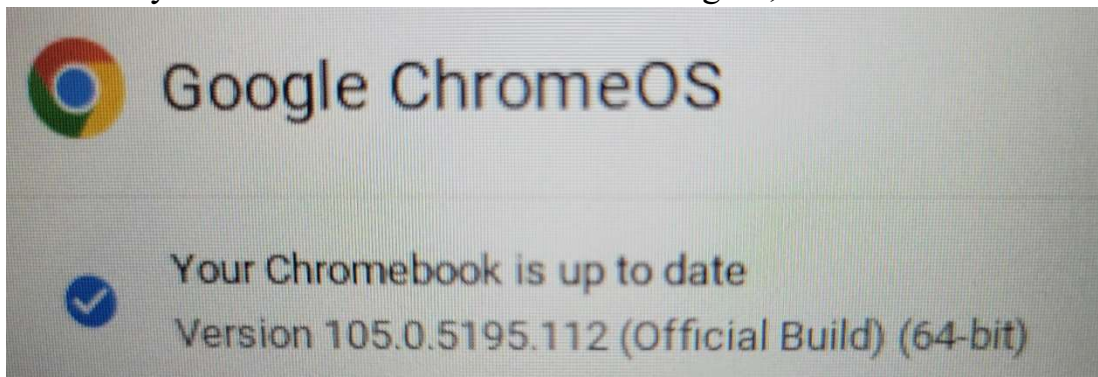

Once in settings scroll down on the left side till you get to the “About Chrome OS”.

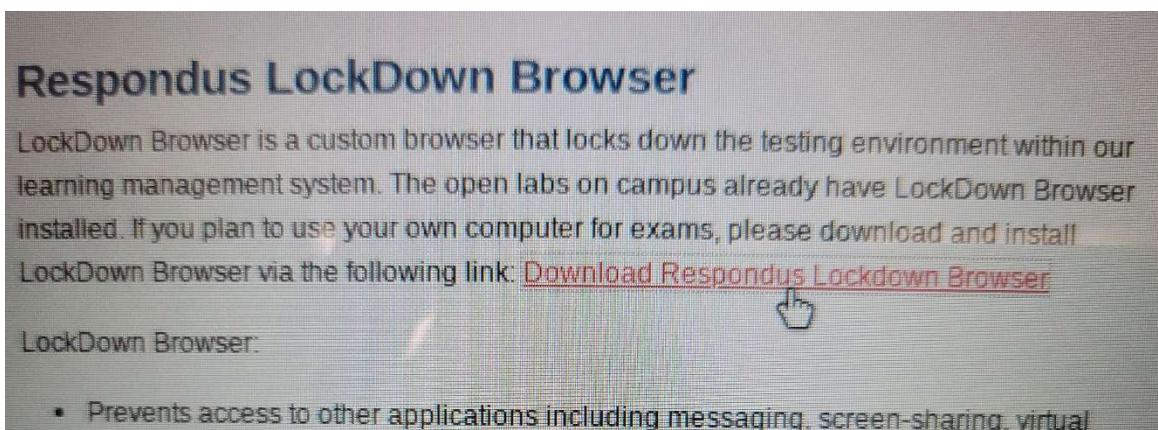

Under the Google Chrome OS you will see update button. Need to install updates until you get to version 105.1 or until the message says, "you are up to date". Restart after each installed update when it asks to.

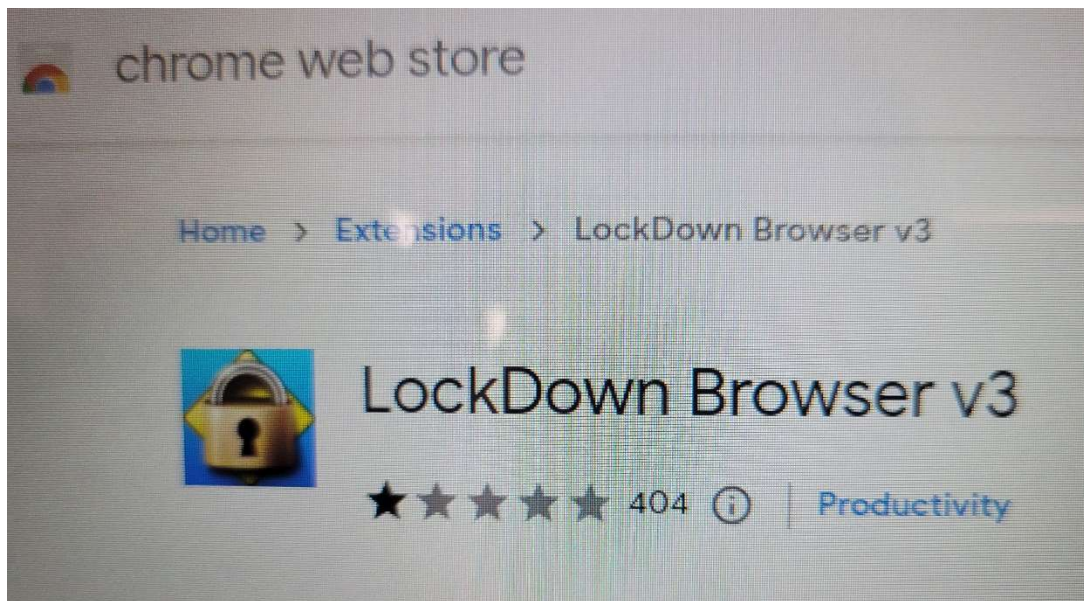

Once you have reached version 105.1 or higher, close the window

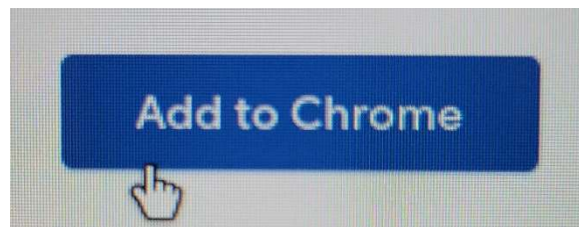

Get to the TSC Respondus Lockdown Browser website or got to <https://hannaechs.bisd.us/programs-and-activities/technology> and scroll down to see the link.

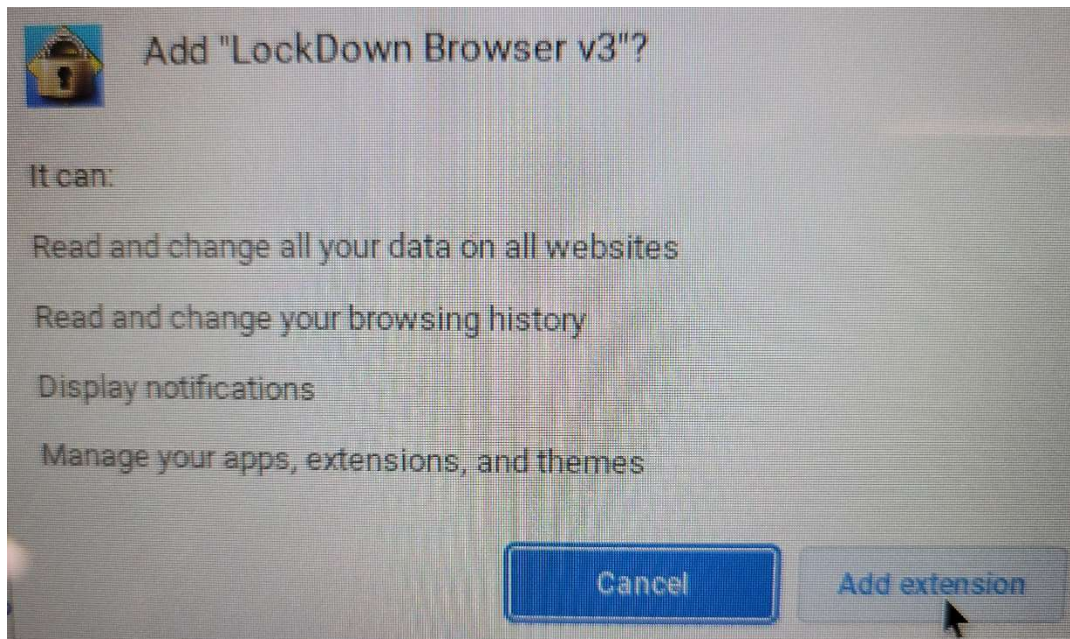

It will take you to the CHROME WEB STORE to add it as extension.

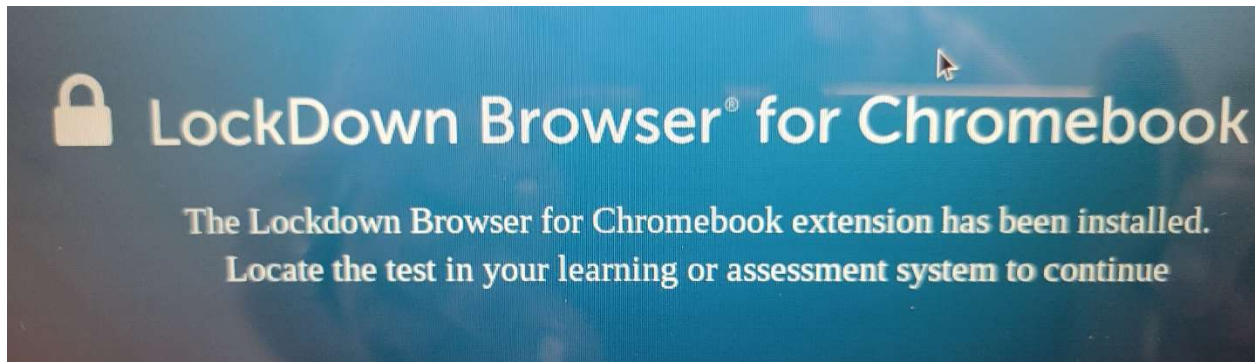

Click on the Add to Chrome button.

Click on Add Extension.

Finally, you have completed the install message appears.

CONGRATULATIONS!
