Do you love to take pictures? Are you creative? Do you like to attend school events? Are you good with digital scrapbooking?

If you answered yes to any of the questions above, we need you in Yearbook Club!

- o The first session is a photography class that everyone needs to attend. You will be required to take 5 pictures and submit them.
- o The second session will give you time to design a mock yearbook page. You will submit this page to the editors.
- o During our third session you will be assigned a yearbook page or series of pages that will be yours to create.
- o The remaining sessions will be lessons on page design and time to create.

*** If you want to be a photographer and not a designer, attend the first and second sessions only. After that, you can just email your submissions throughout the year.
