

21st CENTURY PRESENT

CLOONAN Middle School

BULLDOGS AFTER-SCHOOL Program

Greetings Bulldogs Families:

Welcome to the 2022-2023 SPS school year! My name is Latisha Williams; I am the program coordinator for Roscco after-school program at Cloonan Middle School. I want to introduce myself to you and your family and welcome you to this session as we welcome this new academic school year.

Roscco has joined forces with the 21st Century to launch enrichment programs at Cloonan Middle School. Our number one goal is to support basic developmental needs and positive outcomes for youth during the school years. The Cloonan enrichment program offers after-school homework help and activities for about 100-120 6-8 grade students. Our program includes homework support, STEM activities, art, music, physical fitness and wellness, field trips, and professional career input. As a certified teacher who has taught for over seven years. I understand the importance of after-school programs.

Our after-school sessions will provide structured programs and engaging activities while at the same time allowing students to learn about developing relationships with other kids and the world around them. The activities we want to implement in our program will be designed to help improve youth outcomes (physical, behavioral, and educational) and promote healthier communities overall.

The 1st session of the after-school program starts on Monday, October 3rd, and runs Monday-Thursday from 2:10 pm-4:00 pm. A bus, if needed, will bring your child home.

Anyone from the Cloonan district is welcome to join this program, including middle school students who are homeschooled or attend private schools. We look forward to building great relationships with your child and you and helping to facilitate their growth and success.

Please submit the attached application and email me at williams1@stamfordpublicschools.org or 203-977-6690 with any questions.
