

Hello Kernsville Families,

Welcome to the 2022-2023 School Year! It's often hard to say good-bye to the relaxing days of summer and move forward into a new school year. I know if we work together, we can make it another successful year.

As we begin our school year, we want to stress the importance of some tasks that need to be done BEFORE your child gets to school. As every parent checks their child each morning, you will help keep everyone at school, including your child, safe!

Please refer to the Kernsville Elementary Health Screening Tool located under the Parent Tab in the internet page. Or click [here](#).

- ❖ Do they have any of these symptoms? *Sore throat, fever, headache, stomach ache, diarrhea, body aches/chills, loss of taste or smell, coughing or they look ill.*
  - If they have ANY of these symptoms, **DO NOT SEND YOUR CHILD TO SCHOOL** and contact your child's doctor
  - **If your child has shortness of breath, blue lips and appears confused or lethargic get immediate medical attention or call 911**

As always, please continue to reinforce, with your child, the importance of handwashing/ hand sanitizing, and proper respiratory etiquette.

Thank you for working together to help keep everyone safe and healthy during this school year.

Mariana Badelita, School Nurse
