Completing and Submitting Assignments

Browsing Content and Offline Access

Savvas Realize Home Page

From Savvas Realize, your student can complete assignments, take tests, check grades, and even access textbooks online. Continue exploring the Realize **Home Page** below, or [click here](#) to see it in action.

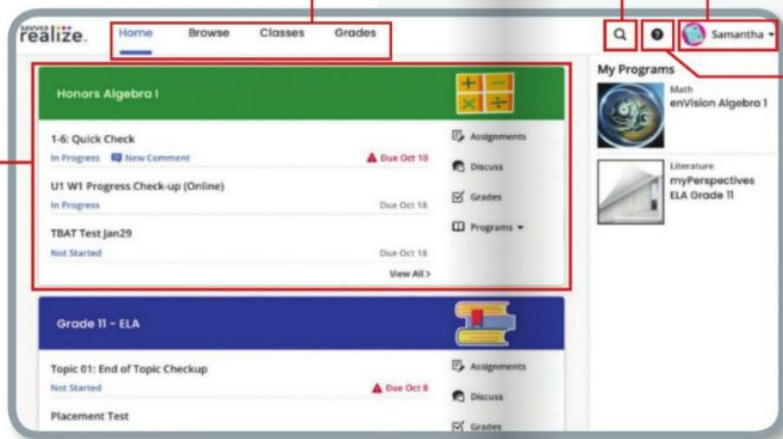

Navigate Anywhere

Menu options on the Home Page allow your student to **Browse** their digital content, access all of their Realize **Classes**, and view their **Grades**. These menu options are available from the class cards on your student's **Home Page**, as well as from the top menu bar on every Realize page.

i Note: If your student's **Home Page** looks different, their teacher may be using our **Early Learning Theme**.

At-a-Glance Info

For each of their Realize classes, students have a class card that includes recent **assignment information**, alerting them to comments and reminding them of due dates. Cards also provide access to each class's **Discussions, Grades, and Programs**.

Find Content

To search for content in Savvas Realize, click the **magnifying glass** icon at the top right of any page.

Student Profile

Students can click the **Profile** icon at the top right of any Savvas Realize™ page to access the following:

1. The **Settings Menu** allows students to select a language and customize their Profile Home Page images.
2. Click **Sign Out** to close Savvas Realize™. This is especially important if your student is sharing a computer or device with others.

Get Help

The **Help Menu** allows students to get support on any Realize page, and to search for additional help resources.

Savvas Realize Home Page Early Learning Theme

You can access your student's programs by clicking on a title in the **My Programs** section of the dashboard, or by clicking **Browse** in the top menu bar from any page.

Students can click the Savvas Realize **logo** at the top left of any page to return to the **Home Page**.

Using this theme, students can browse their content by clicking on the **Explore** button in the center of the page, or review their class materials by clicking on **My Work**.

For additional support using the Early Learning theme, visit the [Early Learning Realize Help for Students page](#).

Students can click the **Profile** icon at the top right of any Savvas Realize™ page to access the following:

1. The **Settings Menu** allows students to select a language.
2. The **Help Menu** allows students to get support on any Realize page, and to search for additional help resources.
3. Click **Sign Out** to close Savvas Realize. This is especially important if your student is sharing a computer or device with others.

Completing & Submitting Assignments

To complete any assignment, students should follow the navigation prompts provided within the activity.

A speaker icon indicates that the item can be read aloud.

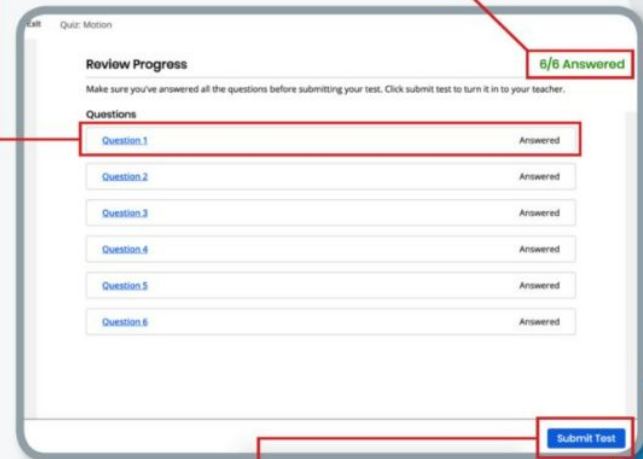

If a **checkmark** appears on the assignment, students will need to click on it, then click **Turn In** on the next screen.

Some assignments will require students to use a tool from the **menu** to show their work and enter their answers. Depending on the type of question, these tools may include the ability to draw, highlight, type, and more.

Students can review their answers before submitting the assignment by clicking on the **question number**.

For some assignments, students may see a screen where they can **Review Progress** and confirm all questions have been answered.

If a **Submit Test** button appears on the assignment, students must click it to submit their work. Once submitted, answers cannot be changed.

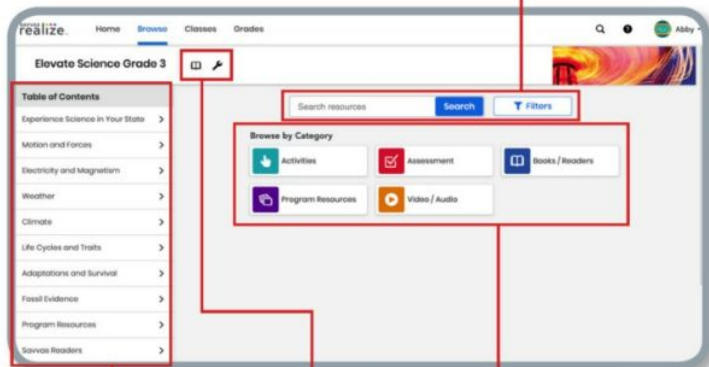

i Note: If your student submits an assignment with incomplete activities, work in those activities will not be visible to the teacher.

Browsing Program Content and Offline Access

Browsing Program Content

Within each program, students can explore the digital resources available to them.

Type in a keyword to **Search** available resources, or **Filter** to narrow the results.

Students can explore program topics within the **Table of Contents**, which mimics their textbook.

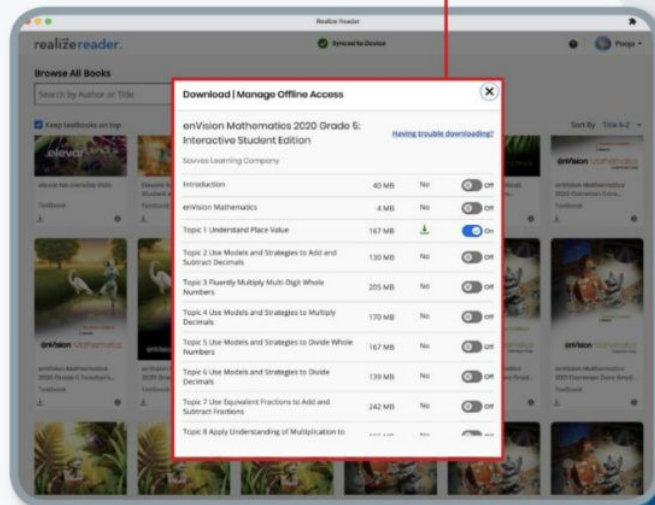

Your student can find a specific type of resource by selecting from **Browse by Category**.

Easily access the Student Edition **eTexts** and a variety of **Tools** that help support class materials, including online games, glossaries, and special activities. Tools will vary by program.

Offline Access

Savvas Realize Reader™ provides online and offline access to the interactive Student Edition for most Savvas programs. If your title offers offline access, a  symbol will be located below the cover.

i Note: Download times will vary based on your selection and local internet connection.

For additional information on how to access your eText through **Realize Reader**, [watch this video](#) or read [Realize Reader for Offline Access](#).
