

Fourth Grade Refrigerator Page

Week of: September 15, 2022

IMPORTANT UPDATES

- Tuesday, September 20 (6:30) – **Instrumental Music Demonstration for parents**
- Friday, September 23 – **Fun Run Information will be sent home**

STEM

Math – In unit 1, we are working on addition and subtraction using the standard algorithm. We will also continue to work on place value of numbers through 1,000,000. Lastly, we will round numbers to the 10,000 place.

Science – We are currently in our first unit, **Interdependent Relationships within Ecosystems**. We are learning about what makes up a “healthy” ecosystem. In the upcoming weeks we will investigate a local pond to determine if the pond is healthy or not.

HUMANITIES

Reading – We have reviewed the Notice and Note signposts for reading. This is a review from third grade. Next week we will begin reading stories in our Wonders Anthology. Also, student will bring home vocabulary words for the story to study during the week.

Writing- Students have started writing in their Writer’s Notebook. They have written about their feelings in various situations and listed items, which are close to their heart. Next week we will start writing about a personal experience for their personal narrative writing.

Word Study

Students have been reviewing the syllable types, starting with closed syllables. We will review all six syllables types and exceptions this quarter.

Please send in headphones for your child. 😊
