Agenda

SCHOOL DISTRICT BOARD ROOM

Meetings are held in the East video-conference room – Room 110.

Please enter the High School through the circle drive entrance.

Board meeting time is dedicated to the mission and goals of the Strasburg 31J School District. Your opinion is valuable to the Board. There is an opportunity during request from patrons to address the Board.

Members of the public who intend to offer public comment to the Board must sign up for comment with the Superintendent at least 24 hours before each Board meeting. The Board President has discretion to call on those who have signed up and set the order of speakers.

Presentations must be no more than three minutes.

There are many other ways to become involved with the schools such as district accountability committees, booster clubs, classroom parent volunteers, etc. For information, feel free to contact any of the schools or the administration office.

Summary of the State Superintendents' position on the proposed changes to the accountability system.

1. What the state board is trying to do:
 - a. Move the cut scores on accountability rankings to make it more difficult for schools to earn top ratings.
 - b. Change the calculation of the rankings to lower how student improvement or growth is factored in.
2. Accountability is important, and so are test scores but...
 - a. This change moves the goalposts on schools yet again while the underlying data is no different. We hardly have a year go by without some change or shift like this in the goalposts or the tests themselves.
 - b. We know these ratings largely reflect the demographics of the communities where schools are located. This change puts even more pressure on the schools serving the most at-risk populations and makes it harder for them to reach the highest ratings in the state system.
3. The shift away from growth scores also fails to recognize that:
 - a. Students come into our schools with different starting points.
 - b. Standardized test results are highly correlated with student demographics and poverty – things that are outside the school's control. A fair accountability system should recognize the improvements schools make for students, wherever they start.
4. The larger issue.
 - a. The world is changing dramatically due to automation, globalization of the economy, and easy access to information. Piling more consequences for schools based on a system that relies on fact/recall information goes against what the business community has been telling us for a decade in terms of the kinds of skills people need to succeed in the workforce such as communication, complex problem solving, adapting to changing conditions, and finding creative solutions. Standardized tests don't get a these concepts very well, but they are undeniably important.
5. What we want.
 - a. We are asking the state board and the department to slow down and work with us to think through what a fairer system might look like, and one that recognizes and supports the kinds of shifts in learning that students really need to be prepared for their future.

The test scores measuring content are important, but they aren't enough and haven't been for some time.

What is esports?

ESPORTS STANDS FOR ELECTRONIC SPORTS Esports requires a tremendous amount of critical thinking, communication, collaboration, and creativity from players to achieve and sustain success.

Esports takes video gaming to another level with organized competitive gameplay between two teams, governed by its own strict set of rules and guidelines. The difference is comparable to a pick-up basketball game at a park versus a varsity high school basketball game.

Today, esports is growing exponentially with over 400 million fans worldwide who repeatedly sell out arenas. Currently, there are more than **200 colleges and universities** offering almost **15 million dollars in scholarships**. Establishing esports in high school enables students to do what they love and provides them with additional opportunities to earn recognition.

Benefits of Esports

Character Development

Students build character and develop discipline, self-esteem and sportsmanship through practice and gameplay.

Increase Participation

Esports are co-ed, inclusive, and engage students who might not otherwise participate in school athletics or activities.

STEM Engagement

Esports players are often interested in STEM classes and programs. A high percentage of collegiate esports players select STEM majors.

College Scholarships

More than 200 colleges and universities offer esports scholarships and are actively recruiting players for esports programs.

"Esports brings out a **new type of competition** in the school system that has never been introduced before. Some students who wouldn't ever want to participate in a sport now have the opportunity to do so while representing their school and building a community on campus."

Coach Dan Ungar,
Weston High School, CT

How does PlayVS work?

PLAYVS IS THE OFFICIAL HIGH SCHOOL ESPORTS PLATFORM We provide a robust online platform that enables schools to easily build and manage teams, check schedules, and track stats, all with real-time support.

League Structure

There will be two seasons each school year:

Fall - October to January

Spring - February to May

Matches are played on a weekly basis and consist of a set number of games.

League of Legends - Tuesdays

Two consecutive games (best-of-two)

SMITE - Thursdays

Two consecutive games (best-of-two)

Rocket League - Thursdays

Up to five consecutive games (best-of-five)

Fall 2019 Schedule

Each season is divided into 3 different phases.

Pre-Season Practice on the PlayVS platform.

Week 0: 10/14/2019

Regular Season Each team's record determines the standings for entering the Playoffs Season.

Week 1: 10/21/2019 Week 5: 11/18/2019

Week 2: 10/28/2019 Week 6: 12/2/2019

Week 3: 11/4/2019 Week 7: 12/9/2019

Week 4: 11/11/2019 Week 8: 12/16/2019

Playoffs Season The top teams play in a single-elimination bracket until the finalists are determined.

Playoffs: January 2020

Championships: TBD

Get Started

Quickly build an esports program by signing up on PlayVS.com.

1 Campus Interest Meeting

Host an interest meeting on campus to get student sign-ups for each of the games and build out your esports program.

2 Find a Coach

Schools approve the program and select coaches. IT administrators ensure your tech is secure and prepared for gameplay.

3 Build a Team

Coaches build multiple teams that all represent the same school. There are no cuts and teams are co-ed. We recommend at least 15 students for a well-rounded program.

4 Compete Together

Each team will play on campus and compete online with other schools in the state. No travel required.

5 Win a Championship

Build on your success throughout the regular season to make the playoffs and land on top!

"The kids that are participating here have **dramatically pulled up their grades** to be eligible. It gives this small group **a reason to come to school.**"

The Parents' Guide to High School Esports

Esports is growing, fast.

Esports has become an official sanctioned high school sport, and players across the country are changing what it means to be a student-athlete. To help parents in this new journey, PlayVS and the NFHS have put together this helpful guide.

- I. About Esports
- II. Benefits of Esports
- III. Esports in Education
- IV. Esports Safety

About Esports

What is esports?

Esports officially stands for electronic sports, not to be confused with video games. Esports takes video gaming to another level with organized competitive gameplay between two teams, governed by its own strict set of rules and guidelines. The difference is comparable to a pick-up basketball game at a park versus a varsity high school basketball game. Esports requires teamwork, communication, critical and strategic thinking, creativity, sportsmanship, and leadership – much like traditional sports.

What does the high school experience look like?

Like any other high school sport or extracurricular activity, your student will attend team meetings, practices, and official matches. However, since esports is played online, there is **no travel required** throughout the regular season. Players compete from their respective campus, supervised by a coach. Currently through PlayVS, students can compete in teams of five for League of Legends and SMITE, and teams of three for Rocket League, three of the most popular titles in esports. Each school year is divided into two regular seasons, Fall and Spring, each with their own playoff season.

Regular Season

- Weekly matches and practices
- On campus, no travel
- State rankings

Playoff Season

- Top teams compete
- Single elimination
- Online finals

What equipment does my student need to participate?

Many school computer labs or libraries already have the equipment needed to participate on campus. All your student needs to compete is a PC, keyboard, and mouse. Additional equipment includes a headset with mic, jerseys, and game controllers.

With their PlayVS season pass, students will receive in-game perks and free copies of games for an even playing field.

Esports Benefits

Esports requires a tremendous amount of critical thinking, communication, collaboration, and creativity from players to achieve and sustain success. It reaches beyond traditional sports to create an all-inclusive environment that breaks barriers.

Sense of Community

A [Pew Research Report](#) states that video games play a vital role in teen friendships. The inclusiveness and accessibility of esports allow students to come together over a common passion while providing access to a positive adult mentor in their lives.

***84%** of Season Zero players reported they finally found a community they could connect with.*

Character Development

There will inevitably be challenges and early failures, but players who demonstrate grit and adapt/learn will typically succeed in esports. Fortunately, these attributes are exactly what employers and colleges are telling high schools they are looking for in recent graduates.

Increase Participation

There is a strong correlation between student engagement and student achievement. [NCES reported](#) that students who participated in extracurricular activities perform higher on math and reading assessments.

STEM Engagement

The amount of technology involved with esports enables students to practice and develop STEM skills. Students spend hours analyzing data, game statistics, and strategies, which provide real-world experience and application.

"The kids that are participating here have dramatically **pulled up their grades** to be eligible. It gives this small group **a reason to come to school.**"

Coach Catherine Turner
Lafayette High School, GA

Esports in Education

We firmly believe that esports has a place in education. It provides many opportunities for growth and learning, such as the creation and practice of "soft skills," including communication, collaboration, critical thinking, and creativity. Many of the same skills that employers are looking for in recent graduates.

Scholarship Opportunities

Esports can provide a gateway to colleges and universities. The National Association of Collegiate Esports (NACE), the main governing body for varsity collegiate esports, has awarded millions of dollars in esports scholarships and aid over the last five years. Currently, more than 200 colleges and universities offer nearly 15 million dollars in scholarships.

Esports majors and careers are becoming increasingly more accessible. There are growing opportunities to find employment in esports-related careers. These opportunities include broadcasting, marketing, graphic design, multimedia production, hospitality, coaching, and management.

Esports Embody ISTE Standards

- Empowered Learner
- Digital Citizen
- Knowledge Constructor
- Innovative Designer
- Computational Thinker
- Creative Communicator
- Global Collaborator

*More than **200 colleges** and **universities** offer nearly **15 million dollars** in scholarships.*

Esports Safety

What are these games rated?

All games offered to high school students for competition purposes are either rated "T for Teen" -- games that are appropriate for students 13 years or older -- or "E for Everyone" -- games for all ages. Players must be 13 years or older to participate in the PlayVS high school leagues.

Should I be worried that my student is playing too much?

The amount of screen time should always be discussed and monitored. Just as in traditional sports, student-athletes must find a balance between practice, games, school work, rest, proper nutrition, social time, and, of course, sleep. One of the benefits of joining a formal esports team is that rules and practice schedules can be set and monitored regarding how much students can play during the week and on weekends. Setting clear guidelines for device and computer-free times and zones in your home will help your student find a proper balance between all of their interests.

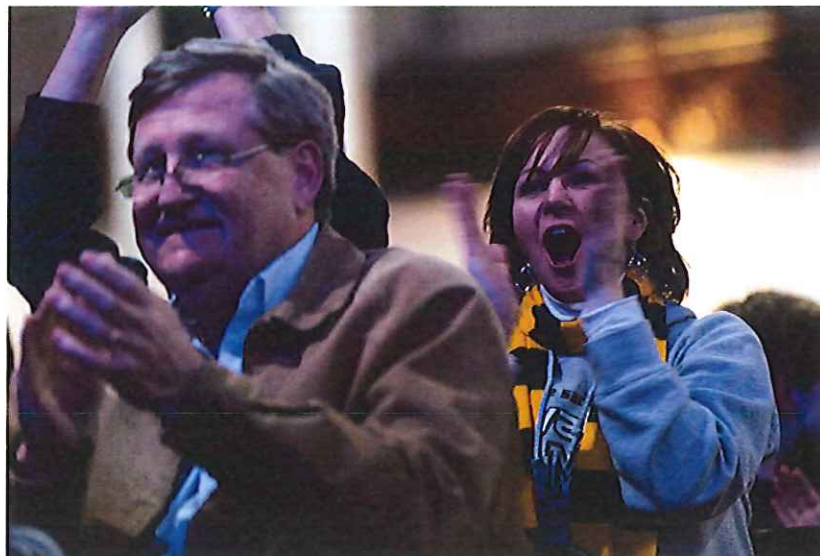

Additionally, with an esports coach, parents are able to discuss concerns and develop plans with them to help students stay on top of academics and extracurricular activities.

About PlayVS

PlayVS is building the infrastructure and platform for amateur esports, starting with high schools. We work directly with game publishers and states to build and operate sanctioned leagues across the country. Through the National Federation of State High School Associations (NFHS), PlayVS is empowering students to compete in esports on behalf of their high school, with the opportunity to win a championship, just like any other youth sport. Contact your local school's principal or athletic director to get a program started and learn more at www.playvs.com.

Parent Testimonial

"I very recently saw the YouTube video, 'Esports EXPERT Brings Video Games To High School' posted via *MY HUSTLE*. This was shocking to me because my son Kiernan, from the Shawsheen Technical High School eSports team, was interviewed in this video but he never even told me about it. After sharing the video with my entire family and then on Facebook (for bragging rights of course), I commented on the YouTube video but realized that I couldn't be certain that anyone in your organization would see it.

It's important to me that PlayVS and anyone else involved in launching this program, truly grasped how much it means to me. It has **truly changed my son's entire academic trajectory**.

I can never relay how much I personally appreciate all the hard work and dedication that has gone into this program. When my son, Kiernan from Shawsheen ESports team (in video), came home and said he 'made the J.V. team' - having never had any interests in playing sports, I actually got emotional. He was a self-proclaimed 'outcast' all his academic life up until that point, with very few social options. Was heartbreaking from a parent's POV because he's a bright, funny, caring kid who had no real connections his whole young life. He never felt that sense of belonging at the peer level, that's available for other kids, like student-athletes. **That has changed exponentially.**

PlayVS is **changing the worlds and lives of kids** like Kiernan. Giving them a platform to not feel so alone, at a time in all our lives, when we need it the most.

Thank you!! From the bottom of my heart."

Kelly Birkmaier

Proud Esports Parent

"It is great to be with people that you know. I've **made amazing friends**. We stick together. We work together."

RESOLUTION

AUTHORIZING THE USE OF A PORTION OF BEGINNING FUND BALANCE AS AUTHORIZED BY COLORADO STATUTES

WHEREAS, C.R.S. 22-44-105 states that a budget, duly adopted pursuant to this article, shall not provide for expenditures, interfund transfers, or reserves, in excess of available revenues and beginning fund balance.

WHEREAS, the Board of Education may authorize the use of a portion of the beginning fund balance in the budget, stating the amount to be used, the purpose for which the expenditure is needed, and the district's plan to ensure that the use of the beginning fund balance will not lead to an ongoing deficit.

WHEREAS, the Board of Education has determined the beginning fund balances in the fund is sufficient to allow for the one-time expenditures and the action will not lead to an ongoing deficit.

NOW, THEREFORE, BE IT RESOLVED:

IN ACCORDANCE with C.R.S. 22-44-105, the Board of Education authorizes the use of a portion of the FY 2019-2020 beginning fund balance for the following funds:

- Fund 10 General Operation Fund, in the amount of \$375,000 for the purchase of three school buses.

BE IT FURTHER RESOLVED, the use of this portion of the beginning fund balance for the purpose/s set forth above will not lead to ongoing deficits in the funds.

Adopted this 16th Day of October 2019

Strasburg 31J School District

Signature of President of Board in accordance with 22-44-110(4)

Signature of person attesting to the Board President signature

Guidelines for Public Meeting Conduct and Comment by Citizens

The Strasburg School District 31J Board of Education values the input of citizens in making important decisions that affect the District's students and welcomes citizens to observe Board meetings and offer public comment.

To ensure citizens have an opportunity to offer public comment and to ensure that the Board can conduct the important business of the District, the Board will designate a portion of each regular meeting to hear public comment concerning matters within the Board's authority. Individuals shall not interfere with the ability of other citizens to observe the Board meeting or offer comment or otherwise interfere with the ability of the Board to conduct its business.

Generally, School Board Members do not respond to public comment during the meeting. The Board will listen to all comments and may direct the Superintendent to follow-up on an item for future discussion.

The following rules of conduct apply to all public comment:

1. Members of the public who intend to offer public comment to the Board shall sign up for comment with the Superintendent before the Board meeting begins. At the time of sign up, speakers shall identify the topic of their comment and whether or not they are a student. Speakers are expected to become familiar with and adhere to these Guidelines.
2. The Board President will set the order of speakers and shall call student speakers first. Only those speakers recognized by the Board President will be allowed to speak. Comments by others are out of order. The Board President may request a spokesperson for a group that shares common concerns.
3. Once called to comment, speakers shall come to the designated podium and state their full name, spelling their last name, home address, and reason for wishing to speak. Each speaker is allotted three minutes for public comment. Speakers may decline to comment when their name is called but may not yield their allotted time to other speakers.
4. Materials intended for consideration by the Board should be left with the secretary. No materials are to be distributed directly to Board members. Speakers may not use videos or slide presentations to accompany their comment.
5. Speakers shall not identify a student by name in open session without the permission of the student and the student's parent. Using a student's name without permission will result in the Board President terminating the speaker's remaining time for comment.
6. All speakers must treat each other and the Board and District staff with civility. Speakers are welcome to offer constructive criticism motivated by a sincere desire to improve the quality of the educational program or to equip the schools to do their tasks more effectively. The Board encourages citizens to exercise their free-speech rights in a responsible manner and to refrain from personal attacks against individuals, recognizing that defamatory comments may be subject to legal action.
7. The Board President may interrupt, warn or terminate a speaker's comments that are unrelated to the business of the school district, inappropriate for PK-12 students, or disruptive to an orderly, productive meeting. If disruptive, the citizen causing the disruption may be directed to leave the Board meeting.

Statement for Board President Prior to Public Participation Agenda Item

The Board recognizes the value of public comment on issues related to the operation of the schools. To ensure that our meeting is conducted in an orderly manner, we ask that persons who address the Board:

1. Confine your comments to matters that are germane to the business of the school district. Student speakers will be heard first, followed by speakers on agenda items and then those speaking to non-agenda items.
2. Limit your comments to three minutes.
3. Recognize that students often attend our meetings. Speaker's remarks, therefore, should be suitable for an audience that includes preschool through twelfth grade students.

The Board President may interrupt, warn or terminate a speaker's statement that is unrelated to the business of the district, inappropriate for PK-12 students, or disruptive to an orderly, productive meeting.
