

# California Science Test (CAST) Data Institute

The CAST Data Institute is designed to assist district teams in looking at and using CAST data to inform implementation efforts in science.

Districts are invited to bring a team (TOSA/science specialist, administrator, classroom teacher, and data coordinator) who will collaborate together to:

- Conduct an analysis of CAST data using structured protocols and processes
- Determine additional data to collect to evaluate status of NGSS (Next Generation Science Standards) implementation
- Develop an action plan for further investigation of NGSS implementation
- Create communication talking points about CAST to share with educational partners

The learning and processes used in the CAST Data Institute can be used back in districts to share CAST results, refine science implementation plans, and clearly communicate information to multiple educational partners.

**This event will be held in-person.**

**Date and Time:**

Thursday, Jan. 26, 2023  
8:30 a.m. to 3 p.m.

**Location:**

San Diego County Office of Education  
6401 Linda Vista Road, Room 401-402  
San Diego, CA 92111

**Cost:**

\$50 per participant

**Contact:**
