

Jericho's Board of Education recently adopted a Diversity, Equity, and Inclusion policy, which states that the district will establish a DEI committee.

The purpose of the DEI Committee, as stated in the policy, is to assist the District in creating and implementing plans that advance the District's commitment to maintaining a diverse, equitable, and inclusive environment where all individuals feel valued and respected.

We are asking for those interested in being considered for this committee to fill out an application.

Before submitting the application, please read the board policy here: <https://bit.ly/3UfPXHB>

This committee will meet on a regular basis and requires a long-term time commitment.
