          Ashley Kilcullen  
          Sam Kramer  
          Jayne Pilarski  
          Nichole Woods  
          Lori Berman

Brian Issitt  
Jodi Peroutka  
Andy Colvin  
Raquel Kimball  
Kellie Parten  
Piper Hansill

Absent - Brian Issitt

### **1. Graduation Update**

(Shelley) We sent out a letter last week regarding the graduation change. We moved to one day earlier, May 24th, and 30 min earlier, 7pm. (Jayne) Are we the only ones who changed? (Shelley) It was just going to be us and Pinnacle but we don't know if Pinnacle could make the change.

### **2. Threat Follow Up**

(Shelley) We are lucky we were able to figure out who made the threat. We do check the bathrooms on a regular basis between staff, administration and security. (Raquel) Is there anything we can do to get to the parents? They need to understand we are doing our best at HHS but parents need to help too! (Shelley) We have had classes and put stuff out in the newsletter and will continue to. (Lori) Also, provide resources of who they can contact if they are concerned for their kids. (Andy) Make sure when you put it in the newsletter to make sure to showcase it to put a positive spin on it. (Chuck) We do only have 3 points of where students can enter now and we check every ID. (Piper) I like this, it makes me feel safe.

### **3. M&O Override Forum, fact sheet, other updates (from Principal's meeting)**

(Shelley) This meeting will be at 6pm at Horizon on 9/29 in the Media Center. The Assistant Superintendent of finance will be here. The fact sheet is on the website and was handed out at the community night.

#### **4. Parent Involvement**

(Shelley) I am going to talk with Tara, the president of PAWS on how we find ways to get more parents involved. We want more parents to go to the PAWS meetings. Maybe we could have guest speakers and topics at the PAWS meetings? (Lori) Food helps. The PAWS meetings are every other month.

#### **5. From the Floor**

(Shelley) Updates from the last meeting... Tax credits are always on going. We are using tax credits to fund a field trip for students of the environmental science classes to go to the Herpetological Society. The community night went well and the attendance was high. PAWS had many sign ups, the Q&A was well attended and the parent bootcamp went well. We did discover Rio Salado needs more time. (Lori) Can PAWS sell water and snacks next year?

(Shelley) Sure! Should we add an extra minute to the passing period? Everyone agreed with yes. Andy offered to update the school map to make it easier to read.

(Piper) StuGo would like to do a community carnival in Spring maybe.

(Andy) Is the student returning to school that was involved in the threat. (Shelley) Our recommendation was for the student to not return but there is a hearing for that.

Ended: 3:14pm

**Future meeting:** 10/17, 11/14, 12/12, 1/30, 2/27, 3/27, 4/24, and 5/8
