

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

FRSD utilizes AIMSWebPlus and progress monitoring to identify students who score below or well below national norms for their grade level. These students were automatically identified for inclusion in after-school programming. Additionally, students can qualify by teacher referral or parent request.

**Section: Narratives - After-school Program**

**After-school Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	50	Classroom reading and math teachers will provide targeted remediation in math and reading for students for one hour a day, five days a week. Remediation will be based on AIMSWebPlus benchmark testing and progress monitoring.

3. Describe the evidence-based resources that will be used to support student growth during the after- school program.

Students will have online access to Lexia, Get More Math, Imagine Math, and i-Lit (which provides and adjusts instruction based on individual students' needs) and explicit instruction (reteach) from classroom teachers.

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
6	Internal	A math and reading teacher from the primary, intermediary and junior high school levels

Number of Staff Members	Internal/Outside Provider	Role
		will tutor students.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
AIMSWebPlus Progress Monitoring	Biweekly	Students who participate in after-school tutoring will demonstrate accelerated learning (rate of improvement) based on progress monitoring.

6. How will the LEA engage families in the after-school program?

Classroom teachers will make personal contact with parents as soon as the after-school program is ready to launch to encourage student participation. Tutors will provide parents with monthly updates of student progress.

## Section: Narratives - Needs Assessment

### Introduction

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$ 249,848,000 or five percent (5%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to school districts, charter schools and cyber charter schools (collectively, LEAs) = to implement evidence-based interventions that address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that LEAs, at a minimum, use the funds they are awarded under this subgrant in the following ways: .

### Percentage of LEA Allocation - Required Activities

**30% - To address the social, emotional and mental health needs of students**

**10% - To provide professional development and technical assistance to educators, school support staff, school leaders and school health professionals to address the social, emotional and mental health needs of students.**

**8% - To address reading remediation and improvement for students**

The remaining allocation may be used by the LEA to address and/or supplement other areas of learning loss caused by the pandemic.

Act 24 also requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer activities, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs.

Through this grant application, LEAs will meet their requirement of developing a three-part plan, including describing their planned programming, a narrative outlining the expected benefit of each program and activity, as well as an overview of how the LEA determined the areas of need to be addressed, including the use of stakeholder feedback.

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their

students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting student needs since March 2020.

### Indicators of Impact

1. Understanding the Impact of the COVID-19 Pandemic: Describe how the LEA has identified or will identify the extent of the impact of the COVID-19 pandemic on student learning and well-being. Specifically, what methods (i.e., collecting and analyzing data and information from focus groups, surveys, and local assessment results) were used or will be used to identify and measure impacts in four key areas: (1) Social and Emotional Learning, (2) Professional Development needs to support Social and Emotional Learning, (3) Reading Remediation and Improvement for Students, and (4) Other areas of Learning Loss?

	<b>Method used to Understand Each Type of Impact</b>
<b>Social and Emotional Learning</b>	Referrals for counseling from FRSD's Threat Assessment Team, SAP Team, and/or Safe2Say system
<b>Professional Development for Social and Emotional Learning</b>	Classroom teacher, special education teacher, and school counselor use of PBIS following training as well as student response following launch of PBIS schoolwide
<b>Reading Remediation and Improvement for Students</b>	AIMSWebPlus benchmark testing and progress monitoring in reading, ELA class grades, CDT scores, and growth on web-based supplements (Lexia or i-Lit)
<b>Other Learning Loss</b>	AIMSWebPlus benchmark testing and progress monitoring in mathematics, mathematics class grades, CDT scores, and growth on web-based supplements (Imagine Math or Get More Math)

### Documenting Disproportionate Impacts

2. Identify the student groups in the LEA that faced particularly significant impacts from the pandemic in the areas of Social and Emotional Learning, Reading Remediation and Improvement, or any other areas of learning loss that the LEA will address with this funding source. For each, provide specific strategies that were used or will be used to identify and measure impacts.

<b>Student Group</b>	<b>Area of Impact</b>	<b>Provide specific strategies that were used or will be used to identify and measure impacts</b>
Children from Low-Income Families	Social and Emotional Learning	Response to on-campus counseling and response to PBIS interventions
		Response to targeted reading

Student Group	Area of Impact	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Reading Remediation and Improvement	intervention (Tier 2 and Tier 3) during the school day and during after-school tutoring
Children from Low-Income Families	Other Areas of Learning Loss	Response to targeted math intervention (Tier 2 and Tier 3) during the school day and during after-school tutoring

**Section: Narratives - Learning Loss Program Questions**

**Learning Loss Program Questions:** In this section, LEAs are asked to describe the activities they have designed to support accelerated learning to combat learning loss caused by the COVID-19 pandemic for their students. Please use the following link to ensure that your calculated values below are equal to the values published on PDE's website. The file contains your LEA's MINIMUM required reserves for Learning Loss to address SEL, SEL PD, and Reading Improvement. [Click to download reserve amounts.](#)

\*LEA's can choose to spend MORE than the minimum required reserves for Learning Loss. Those values will be entered in the budget sections.

**Section 3a – Social and Emotional Learning:** As schools across the Commonwealth return to school, LEAs face increased challenges in addressing the mental health needs of their students and staff. LEAs are required to utilize **A MINIMUM of THIRTY PERCENT (30%)** of funding available through this grant application to support the Social and Emotional Learning of their students. In this section, LEAs are asked to describe the activities they have designed to address these needs. Please reference the SEL framework to assist in developing this plan.

3. Calculate 30% of LEA Allocation as the **MINIMUM REQUIRED RESERVE** for Social and Emotional Learning. *(Calculation will populate when you click the Save button)*
  - *This value will be needed in the corresponding budget section.*

	Total LEA Allocation	Multiply by 30% (.30)	Minimum Allocation for SEL
<b>Minimum 30% SEL Requirement</b>	30,608	30%	9,182

4. Describe the data sources the LEA is using to identify social and emotional needs of students and identify areas of strength and concerns in the learning environment.

Students who have been identified as needing counseling through the Threat Assessment Team, SAP, Safe2Say or any other referral but who do not have state-provided insurance and cannot afford out-of-pocket costs will be provided financial assistance to receive counseling through a local provider on campus. Additionally, students will benchmark test to determine who needs tiered PBIS intervention in addition to universal prevention.

5. Program/Activities – Please describe the planned program activities and identify the type of activity

and the number of students to be served by that activity.

Program Activity	Student Group	Type (Universal, Targeted, Intensive)	Number of Students Served
On-campus counseling--funding for students who cannot afford copay	Children from Low-Income Families	Targeted	15
Tiered PBIS Interventions	Children from Low-Income Families	Targeted	25

6. How will the LEA assess the success of the SEL program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Response to counseling sessions	Weekly	Enhanced coping skills that lead to improved academic performance
AIMSWebPlus PBIS progress monitoring	Biweekly	Attaining the targeted rate of improvement

**Section 3b – Social and Emotional Learning Professional Development:** LEAs face increased challenges in addressing the mental health needs of their students and staff. LEAs are required to utilize **A MINIMUM OF TEN PERCENT (10%)** of funding available through this grant application to support professional development activities and technical assistance for educators, school support staff, school leaders and school health professionals to address the social, emotional and mental health needs of students. In this section, LEAs are asked to describe the activities they have designed to address these needs.

7. Calculate 10% of LEA Allocation as the **MINIMUM REQUIRED RESERVE** for Social and Emotional Learning Professional Development. (Calculation will populate when you click the Save button)

- This value will be needed in the corresponding budget section.

	Total LEA Allocation	Multiply by 10% (.10)	Minimum Allocation for SEL PD
<b>Minimum 10% SEL PD Requirement</b>	30,608	10%	3,061

8. Describe the planned professional development activities and how the activity will ensure that teachers/staff are equipped with training/support on the following:
- Social emotional learning and support for students that have suffered trauma during the COVID-19 pandemic;
  - Identifying signs of possible mental health issues and providing culturally relevant support;
  - Motivating students that have been disengaged;
  - Mentoring students who have attendance issues before it becomes a pattern;
  - Self-care and mindfulness strategies for teachers;
  - Engaging and communicating effectively with parents;
  - Working with community agencies to address non-academic needs.

Professional Development Activity	Number of Staff Involved	Type of Staff Involved (Teacher, Counselor, Support Staff, Admin, Other)	Provider – Who will present the professional development	Is the provider an internal staff member or an outside contractor?	Brief Description of the Planned Activity
a. Social emotional learning and support for students that have suffered trauma during the COVID-19 pandemic;	18	Teacher	IU 11	External Contractor	PBIS Training
a. Social emotional learning and support for students that have suffered trauma during the COVID-19 pandemic;	1	Counselor	IU 11	External Contractor	PBIS Training
a. Social					

Professional Development Activity	Number of Staff Involved	Type of Staff Involved (Teacher, Counselor, Support Staff, Admin, Other)	Provider – Who will present the professional development	Is the provider an internal staff member or an outside contractor?	Brief Description of the Planned Activity
emotional learning and support for students that have suffered trauma during the COVID-19 pandemic;	1	Counselor	IU 11	External Contractor	PBIS Training

9. How will the LEA assess the success of the SEL professional development? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
AIMSWebPlus Progress Monitoring	Biweekly	Students identified for tiered remediation (Tier 2 or 3) in PBIS show measurable improvement.

**Section 3c - Reading Improvement for Students:**

LEA allocations in Reading improvement should be used to increase the best practice in the implementation of research-based reading instruction and acceleration. As schools are planning the most effective use for this 8% set aside for reading instruction and acceleration, they should contemplate the use of structured literacy (also known as Science of Literacy) to develop reading instruction and remediation. Please reference the Structured Literacy framework to assist in developing this plan [LINK NEEDED](#)

LEAs are required to utilize **A MINIMUM of EIGHT PERCENT (8%)** of their ARP-ESSER allocation for research-based reading instruction. In this section, describe the course of action to remediate and improve reading gaps through research-based practices.

10. Calculate 8% of LEA Allocation as the **MINIMUM REQUIRED RESERVE** for Reading Improvement for Students. (Calculation will populate when you click the Save button)

- This value will be needed in the corresponding budget section.

	Total LEA Allocation	Multiply by 8% (.08)	Minimum Allocation for Reading Improvement
<b>Minimum 8% Reading Improvement Requirement</b>	30,608	8%	2,449

11. What local assessments were used to determine the need to address learning loss in the area of reading? For which specific groups of students was this need evidenced? What were the findings?

AIMSWebPlus benchmark testing in September 2021 and CDT testing in October 2021. Students from low-income families and students with specific learning disabilities in reading. Students from these groups showed more regression and took longer to recoup learning than in previous years.

12. Does your data indicate that at-risk readers are making at least a year's worth of growth or more in one school year? \*Please consider both state PVAAS data and local assessment data

No

Please explain:

Reading scores are higher overall than math scores for the first time in the Elementary School's history, but not all at-risk readers are growing at least a full year.

13. Has the LEA used structured literacy and/or provided training for K-4, ESL, and Special Education teachers in structured literacy?

Yes

If so, please identify the training, grade level, and number of teachers involved.

Training	Grade Level / ESL / Special Education	Number of Teachers Trained
MTSS	K4-6	18

14. Describe the evidence-based instructional intervention(s) that address the identified needs of students most disproportionately impacted.

Intervention	Student Group	Number of Students Receiving Intervention	Brief Description of Intervention
MTSS Tiered Intervention	Children from Low-Income Families	67	Students needing Tier 2 interventions receive 20 minutes of remediation daily while students needing Tier 3 interventions receive 35 minutes of remediation daily.

15. How will the LEA assess the success of the literacy program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
AIMSWebPlus	Benchmark testing three times per year; progress monitoring biweekly	Rates of improvement among students that reduce the learning gap in reading

**Section 3d - Other Learning Loss Activities:** LEAs are permitted to utilize the remainder of their allocation to support and/or supplement additional efforts being implemented to combat learning loss caused by the COVID-19 pandemic. Please use this section to describe those efforts.

\*This value can be **UP TO 52%** of the total allocation, if minimum values were used for other reserves.

16. Calculate 52% of the remaining LEA Allocation **AS A MAXIMUM** amount to fund Other Learning Loss Activities. (Calculation will populate when you click the Save button)

	Total LEA Allocation	Multiply by 52% (.52)	Maximum Allocation for Other Learning Loss Activities
52% Other			

	Total LEA Allocation	Multiply by 52% (.52)	Maximum Allocation for Other Learning Loss Activities
<b>Learning Loss Activities</b>	30,608	52%	15,916

17. Describe the evidence-based instructional intervention(s) that address the identified needs of students most disproportionately impacted.

Intervention	Student Group	Number of Students Receiving Intervention	Brief Description of Intervention
Additional tutors for afterschool program	Children from Low-Income Families	15	FRSD will add to the number of teachers providing tutoring in math during the afterschool program (one hour daily, five days a week)

18. How will the LEA assess the success of the learning loss activities? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
AIMSWebPlus	Benchmark testing three times per year; biweekly progress monitoring	Rates of improvement among students that reduce the learning gap in mathematics

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

All students in grades 3-10 will qualify for inclusion in the summer enrichment program which will be conducted remotely using school laptops or, if Internet is not available, using a pencil/paper option. End of year AIMSWebPlus testing in reading and math will be used as a

benchmark.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families		200	Students will be provided both online and paper/pencil resources to prevent regression and provide academic growth in math and reading. An incentive celebration will be planned for students who participate in enrichment for at least four of the nine weeks during the summer.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Students will have online access to Lexia, i-Lit, Get More Math, Imagine Math (which provides and adjusts instruction based on individual students' needs) and PSSA/Keystone coaching books for when when students do not have Internet access.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role

Number of Staff Members	Internal/Outside Provider	Role
1	Internal Provider	The district technology director/librarian will oversee online participation. Study books will be assessed by classroom teachers when students return to campus.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
AIMSWebPlus benchmark testing	Three times per school year	Students who participate in summer enrichment will display less regression (at minimum) or more academic growth on September benchmark testing when compared to students' May test results.

6. How will the LEA engage families in the summer school program?

Classroom teachers will make personal contact with parents to encourage student participation in the summer enrichment program. The school will announce to students the incentive celebration that will be provided for students who participate on return to school in the fall.
