

## **Field Trips**

The Board recognizes that the first-hand learning experiences provided by field trips are a most effective and worthwhile means of learning. It is the desire of the Board to encourage field trips, within available funds, as part of and directly related to the total school program.

Field trips shall be closely related to the purpose of the approved courses of instruction.

Specific guidelines and appropriate administrative procedures shall be developed to screen, approve and evaluate trips and to ensure that all reasonable steps are taken for the safety of the participants.

These guidelines and procedures shall ensure that all field trips have the approval of the superintendent and the involved principal and that all out-of-state trips have the prior approval of the Board of Education.
