

South Point Preschool Program Information

South Point Local School District's preschool special education staff is committed to serving our preschool students (ages 3-5) and their families in the areas of early childhood special education and related services such as speech language therapy, physical therapy, occupational therapy, psychological services, and special transportation. We are able to provide these services in various settings, such as childcare, elementary and head start classrooms, home-based, etc., depending on the individualized needs of the child. We also have a program that enrolls typical peers in some of our classrooms (tuition fee). These students are used to provide positive role models for our students with disabilities and must meet our specific criteria in order to be enrolled.

We have high expectations for all children, and in accordance with the Individuals with Disabilities Act (IDEA), ensure access to the general education curriculum in regular education classrooms, to the maximum extent possible. Our curriculum stresses the importance of diverse learning and adapts to all students, regardless of their ability level.

Our parents are an integral part of the preschool process. We value collaboration and communication and look forward to meeting the unique needs of every child. Please call any of the numbers below for more information.
