To: CMP-Governing Board

Date: February 7, 2022

Re: Community Representative Report

The Community Representative Committee interviewed several candidates for the Community Representative Position throughout December 2021 and January 2022.

In early January the Committee informed the candidates they were still meeting with people and that a final decision had been delayed due to the holiday, illness, and issues due to the COVID-19 pandemic. The team hoped to have all interviews wrapped up by the end of January with a recommendation for the February Board meeting. We are happy to tell you we have, and we do.

After interviewing seven candidates we narrowed it down to two potential candidates, and made a selection after final interviews the week of January 17th.

The interview committee would like to formally recommend Amber Busby as the CMP-Community Representative.

Amber works for Mutual Assistance Network. This organization works to strengthen the existing social and economic infrastructure of communities. Her passion for working with the community stakeholders and expanding access to everyone is palpable and came across through her interviews. We are excited for the invaluable depth of experience and talent she will bring to the Board and CMP as a whole as we continue our vital goal of community outreach in all of our charter communities.

We look forward to introducing Amber to you at the next Board meeting.

Sincerely,
Rob Henderson, Jodi Mottashed, and Scott Porter
The Community Representative Committee
