

Mission

Vision

Values

Our School

The first K-12 authorized International Baccalaureate (IB) Continuum School in the region, ABA is a private, non-profit, English language co-educational day school that offers academically rigorous IB programmes to expatriates and a percentage of local students in Muscat, the capital of the Sultanate of Oman. With over 60 different countries represented in a community of 934 students (289 in Grades 9-12), ABA promotes academic excellence within a context of intercultural understanding and respect. In addition to academics, we offer varied extra-curricular programmes that includes opportunities for involvement in student leadership, sports, visual and performing arts, as well as service and environmental initiatives.

Accreditation

ABA is accredited by the Council of International Schools (CIS) and the Middle States Association of Colleges and Schools (MSA). As an IB Continuum School, ABA is authorized to offer the IB Primary Years Programme or PYP (Grades K-5), the IB Middle Years Programme or MYP (Grades 6-10) and the IB Diploma Programme or DP (Grades 11-12).

Faculty and Staff

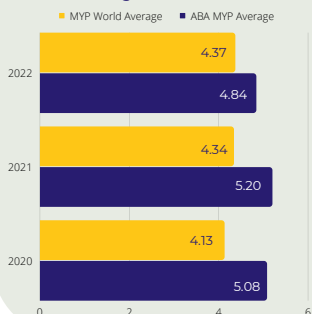

ABA recruits highly qualified teachers who provide a supportive international learning environment for students. The 108 academic staff members at ABA represent 23 nations. All teachers at ABA hold at least a Bachelor's degree; 55% have Masters degrees, and 3% hold Doctoral degrees.

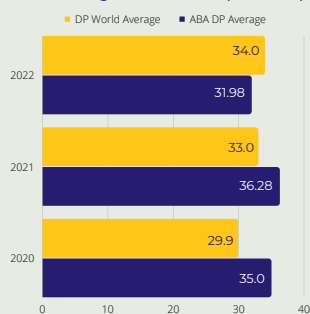

High School Curriculum

An overview of recent results:

MYP - Average Total Points out of 7

DP - Average Points Score (out of 45)

Throughout the 4 years of high school (Grades 9-12), all students work towards the ABA Diploma, a US high school diploma that certifies successful completion of at least 25 credits of university-preparatory coursework. In addition, students in Grade 10 sit the IB MYP e-Assessment to mark the completion of their studies at the middle years level. In Grades 11 and 12, students take courses that follow the syllabi of the IB Diploma Programme with the option of also pursuing the IB Certificate or full IB Diploma, which includes 3 courses at Standard and 3 courses at Higher Level along with bonus points for Theory of Knowledge (TOK), Extended Essay (EE) and Creativity-Action-Service (CAS).

Our Grading System

At ABA, grades are unweighted and students are not ranked. ABA uses the IB 1-7 scale on official transcripts. The cumulative GPA score represents grades achieved in courses taken at ABA throughout High School. We recommend correlating the IB scale to an A-F grading system.

IB Grade	7	6	5	4	3	2	1
Letter Grade	A+	A	B+	B	C	D	F

Graduation Requirement

A minimum of 25 credits of coursework distributed as follows is required for graduation (one credit is equivalent to one year of coursework). Students must score a 3 or higher to earn credit. In addition, students must complete 150 hours of Creativity-Action-Service (CAS). *Students must complete 4 credits in either Mathematics or Science.

Standardized Tests

Preparation for standardized tests such as the SAT and ACT is not available within our school's programme. Students who take these assessments do so independently.

Our Most Recent Graduates: The Class of 2022

With the exception of an average 5% of each cohort who undertake military service or take a gap year, ABA graduates typically enroll directly in an undergraduate programme: 4-year (USA and Canada) or 3-year (other parts of the world) undergraduate programme. The 60 students who graduated this summer represented 36 countries. Of the 55 who pursued the full IB Diploma, 51 were awarded.

University Destinations

Here is a sample of universities where our students have matriculated over the past five years (2018-2022)

Boston University	Technical University of Munich	University of Groningen
Cardiff University	Texas A&M University	University of Illinois
Delft University of Technology	Trinity College Dublin	University of Lancaster
Erasmus University Rotterdam	University of Alberta	University of Manchester
Georgetown University	UC Berkeley	University of Pennsylvania
King's College London	University of Amsterdam	University of Nottingham
Leiden University	University of Birmingham	University of Sheffield
Maastricht University	University of Bristol	University of Southampton
McGill University	University of British Columbia	University of Southern California
McMaster University	University of Chicago	University of St Andrews
Newcastle University	University of Edinburgh	University of Toronto
New York University	University of Florida	University of Warwick
Queen Mary University of London	University of Glasgow	University of Waterloo
		Utrecht University
