*Invest to make a  
difference.*

# Your Gift Matters

Invest today in the potential of every student and encourage discovery of their unique design and divine purpose in God's redemptive story through Jesus Christ.

## 2022-23 GOAL

# 1.5 Million

CPA employs strategic financial planning to ensure tuition and fees cover yearly operating expenses. Many private institutions depend on annual gifts to make up for the shortfall between tuition and costs. CPA's financial stewardship is an exceptional model among most independent schools. *What about "the extras?"*

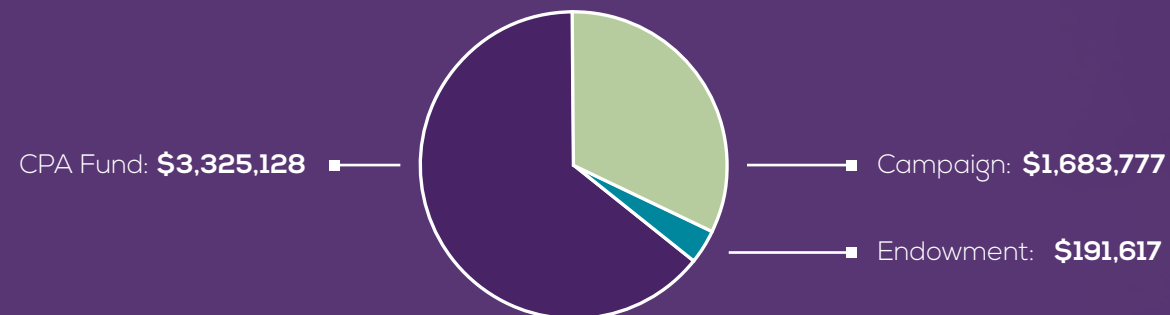

**The CPA Fund** provides readily accessible funds for emerging projects throughout the school year, with immediate benefits for the learning experience. Your annual contributions to the CPA Fund expands our margin for educational excellence above and beyond the budget.

Last year, the CPA community gave often and generously to the CPA Fund, far exceeding the annual goal! Students now enjoy these new resources:

- The Pavilion
- The Institute for Cultural Engagement (TICE) — office improvements, keyboards for songwriting classes, and a Finance Lab
- Spero Hall Walkway
- The Den – sound system improvements

*...and so much more.*

## Total 2021-22 Giving \$5,200,522

# The CPA Fund impacts every student every day

“The CPA Fund is an absolute blessing to CPA Athletics. We are so excited about all that the CPA Fund provides, but we are especially excited about the new Pavilion. The space will touch so many students at the Academy and beyond. Thank you to all those who felt called to give to the CPA Fund!”

***Athletics Director and Varsity Head Football Coach Ingle Martin***

“Thanks to the CPA Fund, we were able to create an open and collaborative office space for our TICE members, teachers, and Center chairs to meet, plan, and create events and activities for our students. This space allowed us to meet with industry leaders and professionals from the Nashville community and beyond.”

***TICE Director Maria Jernigan***

# Every Gift Matters

“The new preschool playground was funded by the CPA Fund a few years ago, and it has been a constant delight to our students! Their imaginations have run wild with creative play in a clean and safe environment thanks to our new space. Teachers have made the playground come to life for our end-of-year programs! They display art on the walls and gather their classes to recite Bible verses and share some of their favorite music for their families who join us at our “Popsicles, Play, and a Peek at Our Day” events. The playground has also provided families the opportunity to connect during the summer as we gear up for back to school and invite each class to come for open playground times.

Last year’s gift from the CPA Fund was the walkway connecting the parking lot to the front entrance of the preschool. Parents are able to better access Spero Hall on our new walkway. This has created a safe passage for them to come to our building without opening safety gates in the playground area or walking through landscaping. Our classes use this walkway daily as they travel around campus and make their day-to-day learning come to life on nature walks and utilizing the library and other parts of our beautiful campus!”

*Head of Preschool Lauren Overbeek*
