

Scott Adams - private music lessons - piano, guitar, ukulele -
scott.yourmusic@gmail.com

I've been teaching children the basics of music for 20 years at CHA, both as a classroom music teacher and private lesson teacher. I teach children the basics of playing an instrument and how music works: reading, improvising, and most importantly to love playing. Although I use pedagogical materials for piano, guitar and ukulele, there is no formula. I meet your child where they are, with what they know and what they're curious about.
