Conflict of Interest

Employee:

As a public education employee, there are numerous sources defining “Ethical Conduct.” Standards of Ethical Conduct address a wide variety of issues, from professionalism in dress to maintaining appropriate relationships with students, parents and co-workers. This policy is intended to outline the standards of Ethical Conduct established by Utah law to assure that public employees avoid conflicts of interest and maintain the public trust. The legal provisions specifically addressed are:

Utah Public Officers’ and Employees’ Ethics Act (The “Ethics Act”), which provides general standards of conduct for public employees in areas where there are actual or potential conflicts of interest between an employee’s public duties and their private interests.

*(Utah Code Ann. 67-16
et.seq.)*

Utah Procurement Code: Illegal Activities, which imposes a more stringent standard for avoiding conflicts of interest involving public employees involved in the procurement of goods or services.

(Utah Code Ann. 63-56-72)

Educational Services Outside of Educator’s Regular Employment, which outlines the requirements for a public school employee to participate in activities such as tutoring, private lessons, clinics, camps, or travel opportunities involving current or prospective students.

(Utah Admin. Code R277-107)

Non Education-related Outside Employment

A school district employee who participates in non-education-related employment or business activities outside of their district employment may not:

- accept employment or engage in any business or professional activity that would require disclosure of controlled information gained by reason of their employment;
- disclose controlled, protected, or private information gained by reason of their

- employment to secure personal privileges or exemptions for self or others;
- use their position as a district employee to further their own personal economic interest or secure special privileges or exemptions for self or others; or
- accept outside employment that may impair independence of judgment in performing their public duties.

Accepting Gifts

A school district employee may not accept or seek, directly or indirectly, for themselves or another, any gift or benefit where:

- it would improperly influence the performance of job responsibilities;
- it is intended as a reward for official action taken; or
- the employee is currently, or in the near future will be involved in action directly affecting the donor.

The Ethics Act defines “gift or compensation” as anything of economic value, however designated, which is paid, loaned, granted, given, donated, or transferred to any person or business entity by anyone other than the employer for or in consideration of personal services, materials, property, or any other thing whatsoever.

A school district employee who is not involved in the procurement of goods or services, may accept an occasional non-monetary gift having a value not exceeding \$50 and any award which may be publicly presented in recognition of public services.

Participation in Transaction Involving Business as to Which Employee Has Interest

A school district employee may not participate in their official capacity in any transaction between the District and any business in which they own a substantial interest unless the employee has submitted a disclosure to their direct supervisor and the Superintendent.

Educational Services Outside of Educator’s Regular Employment

A school district employee who desires to participate in a private, but public education-related activities where the principal clients are current or prospective students must abide by applicable state laws and rules. Such activities include tutoring, lessons, clinics, camps, or travel opportunities.

A school district employee’s participation in outside activities must be separate and distinguishable from their school employment and the employee:

- may not promote the activities by contacting students at the public schools or by

using education records or information obtained through their school employment unless the records or information are readily available to the general public;

- may not use school time to discuss, promote, or prepare for any private activity;
- may not state or imply to any person that participation in a regular school activity or program or the receipt of school credit is conditioned on participation in a private activity;
- shall assure that any advertising of the outside activity is in compliance with state law and district policy;
- shall provide a copy of any contract entered into with an activity sponsor to their direct supervisor and the Executive Administrator's Office.

Utah Procurement Code: Illegal Activities

The Procurement Code provides guidance to public entities, their officers, and employees in the expenditure of public funds.

To avoid conflicts of interest and assure fair and equitable treatment of all persons who enter into business relationships with a public entity, more stringent precautions must be followed than those seen in private industry or even in other areas of the Ethics Act.

Any school district employee who, in their official capacity, participate in the procurement of supplies, services, construction, real property, or insurance is guilty of a felony if the employee asks or receives any compensation, gratuity, contribution, loan, or reward, or any promise of such, either for the employee's own use or the use or benefit of any other person or organization from any person interested in the sale of those items.

This prohibition applies even to gifts that are valued at less than \$50.

Stated Simply:

The giving of any gift to a school district employee who participates in any procurement is a felony.

No employee of the DaVinci Academy of Science and the Arts shall engage in or have a financial interest, directly or indirectly, in any activity that conflicts or raises a reasonable question or conflict with the employee's duties and responsibilities.

Employees shall not engage in work of any type where the source of information concerning customer, client, or employer originates from any information obtained through the school system
