Message to Our Community

August 29, 2022

Dear Bullard ISD Families and Community:

What an amazing start to the 2022-2023 school year! On August 17th, we welcomed back our Bullard Panthers for the start of another outstanding year here at Bullard ISD. While we are only eight days into this school year, I can tell that we are beginning one of the best years for our district. Today, our Bullard ISD Board Trustees finalizes our annual budget process.

Bullard ISD continues to be a high performing district ranking among the best throughout our state. Earlier this month, the Texas Education Agency released accountability ratings for the first time since 2019. Bullard ISD continues to maintain our “A” rating in state accountability with an overall score of a 95 – the highest grade received among Smith and Cherokee county school districts. This is just one accomplishment among many that our students, staff, and community can take pride in. So much of our success is due to our students, faculty, staff, and administration for their hard work and commitment to only the best educational experience possible.

As part of our budget development process, our Chief Financial Officer and I visited with administrative staff, teachers, and our board of trustees. The information gathered from the various groups allowed us to develop a budget that is based on the needs of our students, staff, and community, while also working to support the Bullard ISD Strategic Plan.

Additionally, Bullard ISD has diligently worked to make use of one-time finds provided by the state and federal governments through the Elementary and Secondary School Emergency Relief (ESSER) funds. In some areas of the general operating budget, there is a decrease in expenses compared to previous years due to the use of these funds. Use of these funds have allowed the district to provide much needed pay increases for our faculty and staff, increased technology for our students, and instructional support for our faculty through supplies, resources, and personnel support. In future budgets, these areas will return to the previous levels of funding.

Finally, Bullard ISD continues to plan for the future. Thanks to our community, the district is in the process of design development for a new middle school campus, campus additions at the Primary, Elementary, and High School campuses, renovations to our current middle school campus, and new baseball, softball, tennis, and a multipurpose facility. These facilities will allow our current and future students the opportunity to have one the highest quality learning environments in the area.

I look forward to working with our Bullard ISD team and community as we look to the future. Thank you to our parents and community for allowing us the opportunity to educate your children.

Sincerely,

Jack Lee, Ed.D.

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submit the rates to the governing body by Aug. 7 or as soon thereafter as practicable. Tax Code Section 26.04(e-1) does not require school districts to certify tax rate calculations.

This worksheet is for **school districts without Chapter 313 agreements only**. School districts that have a Chapter 313 agreement should use Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School Districts with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do not use this form. Use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

All other taxing units should use Comptroller Form 50-856 *Tax Rate Calculation, Taxing Units Other Than School Districts or Water Districts*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The Texas Education Agency (TEA) provides detailed information on and guidance to school districts in calculating their tax rates. Please review and rely on information provided by TEA when completing this worksheet. Additionally, the information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The no-new-revenue (NNR) tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of revenue if applied to the same properties that are taxed in both years (no new taxes). When appraisal values increase, the NNR tax rate should decrease.

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a voter-approval tax rate that is split into three separate rates.¹⁸

- Maximum Compressed Tax Rate (MCR):** A district’s maximum compressed tax rate is defined as the tax rate for the current tax year per \$100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment.¹⁹
- Enrichment Tax Rate:**²⁰ A district’s enrichment tax rate is defined as any tax effort in excess of the district’s MCR and less than \$0.17. The enrichment tax rate is divided into golden pennies and copper pennies. School districts can claim up to 8 golden pennies, not subject to compression, and 9 copper pennies which are subject to compression with any increases in the guaranteed yield.²¹
- Debt Rate:** The debt rate includes the debt service necessary to pay the school district’s debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The MCR and Enrichment Tax Rate added together make up the school district’s maintenance and operations (M&O) tax rate. Districts cannot increase the district’s M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district’s debt service.²²

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate (disaster pennies) in the calculation this year. This adjustment will be made in Section 4 of this worksheet.

A district must complete an efficiency audit before seeking voter approval to adopt a M&O tax rate higher than the calculated M&O tax rate, hold an open meeting to discuss the results of the audit, and post the results of the audit on the district’s website 30 days prior to the election.²³ Additionally, a school district located in an area declared a disaster by the governor may adopt a M&O tax rate higher than the calculated M&O tax rate during the two-year period following the date of the *declaration without conducting an efficiency audit*.²⁴

Districts should review information from TEA when calculating their voter-approval tax rate.

SECTION 3: Voter-Approval Tax Rate Adjustment for Pollution Control

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a school district that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 4: Voter-Approval Tax Rate Adjustment in Year Following Disaster

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate in the calculation this year.³⁵ As such, it must reduce its voter-approval tax rate for the current tax year.

This section applies to a school district in a disaster area that adopts a tax rate greater than its voter-approval tax rate without holding an election in the prior year, as provided for by Tax Code Section 26.042(e).
