

High School Program Requirements

Program Name	DSD Course Coode	Program Requirements	*Average Completion Time	Enrollment Type <i>See DTC Program website for Available Days/Hours</i>	Estimated fees**
--------------	------------------	----------------------	--------------------------	--	------------------

*Program completion time is an average amount based upon a full time student coming to class 24 hours per week. In the competency education model, once a student masters a concept and proves competent in it, they move forward through the program so, how a student works determines how quickly a program can be completed. Students may attend the DTC over the Summer to get ahead on their program hours.

**Estimated fees include a yearly high school student fee of \$40.00 plus additional costs to cover books, materials, supplies. An *Industry Certification* is required to graduate and a *License* is optional, but required to work in Utah. Costs are subject to change. Tuition is free as long as the student is in high school. Once the student graduates from high school, they will pay DTC tuition.
