This MOU for Behavioral Health Services (“MOU”), is entered into by _____(name) & (address)_____, doing business as a behavioral health provider (hereinafter “BHP”) in the State of Louisiana. This MOU is effective as of the _____day of _____, 20__ following signature of agreement by the BHP.

Whereas, BHP is a qualified provider of Behavioral Health Services in accordance with La. R.S. 17:173 and 17:3996(B)(45); and

Whereas, the St. Martin Parish School Board is required, with the parent or guardian’s written request and consent, to allow BHP to provide certain behavioral health services, at certain designated School Board facilities, to eligible students who are enrolled in one of School Board’s schools;

Now, therefore, in consideration of the use of such School Board facilities and access to eligible students during the school day, the BHP hereby agrees to abide by the following terms and conditions:

**ARTICLE I
BHP’s OBLIGATIONS**

1.1 **General.** As described herein, BHP will provide certain behavioral health services (as defined in Section 1.3 below) to eligible students (as defined in Section 1.4 below) at the schools identified in Section 1.5 of this MOU, during days and times mutually determined by the parties. The parties understand that services identified under this MOU will only be provided in accordance with the official School Board calendar during months where school is in session and not during the summer period, school holidays, or school closures. The parties further understand and agree that, in order to maintain the integrity of educational services to eligible students, services rendered by BHP to participating students shall not exceed the lesser of the following: (1) the number of minutes which would reduce the student’s instructional day to 360 minutes; or (2) ninety (90) minutes per week, for any individual student. BHP services shall not be provided by BHP during the applicable time period designated for statewide testing by the Louisiana Department of Education. The BHP is not authorized to conduct group sessions with students. All BHP services must be provided on a 1:1 basis. Group parties and similar celebratory activities must occur outside of school hours, away from school premises.

1.2 **BHP Acknowledgement.** BHP understands and agrees that the School Board will only permit access to eligible student(s) on School Board premises during the school day under the following terms and conditions:

- a. Requests for BHP observations, services, and access to School Board facilities

must be submitted by the BHP at least **five (5) school days** before the requested activity. Approval of such requests may be granted by the School Board only after a signed MOU with the BHP, production of required assurances and documents, written request of the parents, and consent of the parents on a form designated by the School Board, and all other terms and conditions set forth in this MOU and School Board policy.

- b. A visit by the BHP to a designated School Board facility is only authorized for the limited purpose(s) described herein.
- c. Subject to the limitations stated in Section 1.1, observation or services provided by the BHP to any given student shall not exceed **45 minutes per day, nor more than one time per day per week**. Grouping students or providing services to two or more students during the same session is not authorized.
- d. The BHP will conduct the permitted observations/services only on the date(s) and time(s) and at location(s) specifically authorized by the School Board through its designated representative. Make-up sessions will not be accommodated. Access to classrooms and teachers is prohibited unless specific consent has been obtained from the principal/designee for a defined period of time and defined purpose.
- e. The BHP must provide a certificate verifying that a Criminal Background Check has been completed by a Louisiana State Police within the past 12 months as required herein.
- f. The BHP agrees to make every reasonable effort to ensure that observations and/or services do not disrupt any student or any staff member in carrying out his/her educational responsibilities. BHP agrees to refrain from entering classrooms and other instructional areas without consent of the principal/designee.
- g. The BHP agrees to respect the privacy rights of every person at the School, whether student, staff, or other individual. More specifically, the BHP shall not record any observation relating to any other student or any educational service provider and shall not include or otherwise disclose the name or other identifying information of any other student in any written or verbal observations or reports. The BHP shall not interact with any other students or school staff, unless specifically authorized to do so by the principal/designee.
- h. The BHP shall report to the school principal or designee when entering and leaving the School. Should the BHP be asked to leave the School premises, he/she shall do so promptly.
- i. Observing and/or providing services to students on School Board premises is a privilege, not a right, and must conform to parameters established by the Superintendent and School Board, including appropriate attire and decorum. This includes, but is not limited to, talking, gesturing, and restrictions on the use of tobacco and electronic devices, possession of firearms, and other lawful orders or direction of School Board personnel in the performance of their duties.
- j. BHP agrees that any visit to a School Board facility is for authorized purposes related to identified students only, with signed consent of the parents, and under parameters established by the School Board. The School Board reserves the right to terminate any visits/observations that become adversarial, promote the use of public property for private gain, or are otherwise used for unauthorized purposes.

Failure to comply with applicable law, School Board policies, and/or this MOU will constitute an appropriate basis for termination of the BHP's authorization to provide services on any school campus.

- k. Permission for the BHP to observe/provide services does not carry with it approval to provide consultation, advice, or recommendations to school staff during such observation or services. Unless specifically authorized by the principal or his/her designee, the BHP agrees that discussions with staff shall not take place during observations or delivery of BHP services.

1.3 **Scope of Services.** BHP acknowledges that he/she will provide behavioral health services as that term is defined under La. R.S. 17:173 and 17:3996(B)(45) only to eligible students. - 1.13 **Maintenance of Patient/Client Records.** BHP agrees to comply with applicable state and federal laws, rules, and regulations regarding the confidentiality, storage, use, and destruction of patient/client medical records.

The State of Louisiana has enacted laws governing the collection, disclosure and use of students' personally identifiable information. The laws require that any third-party who is entrusted with personally identifiable information of any student, contain the statutorily prescribed minimum requirements as to the use of personally identifiable information. In order to comply with the requirements of applicable State and federal laws and regulations relative to privacy and confidentiality, BHP agrees as follows:

In accordance with La. R.S. 17:3914(F), BHP agrees to protect personally identifiable student information in a manner that allows only those individuals, who are authorized by BHP to access the information, the ability to do so. Personally identifiable information maintained digitally and otherwise must be protected by appropriate security measures, including, but not limited to, the use of user names, secure passwords, encryption, security questions, etc. BHP's network and/or individual systems and devices must maintain a high level of electronic protection to ensure the integrity of sensitive information and to prevent unauthorized access in these systems. The BHP agrees to perform regular reviews of its protection methods and perform system auditing to maintain protection of its systems. BHP agrees to maintain secure systems that are patched, up to date, and have all appropriate security updates installed.

To ensure that the only individuals and entities who can access student data are those that have been specifically authorized by BHP to access personally identifiable student data, BHP shall implement various forms of authentication to identify the specific individual

who is accessing the information. BHP must individually determine the appropriate level of security that will provide the necessary level of protection for the student data it collects and maintains. BHP shall not allow any individual or entity unauthenticated access to confidential personally identifiable student records or data at any time.

BHP shall implement appropriate measures to ensure the confidentiality and security of personally identifiable information, protect against any unanticipated access or disclosure of information, and prevent any other action that could result in substantial harm to the School Board or any individual identified by the data.

BHP agrees that any and all personally identifiable student data will be stored, processed, and maintained in a secure location and solely on designated servers. No School Board data, at any time, will be processed on or transferred to any portable computing device or any portable storage medium, unless that storage medium is in use as part of the BHP's designated backup and recovery processes. All servers, storage, backups, and network paths utilized in the delivery of the service shall be contained within the United States.

BHP agrees that any and all data obtained from the School Board, if any, shall be used expressly and solely for the purposes enumerated in the MOU. Data shall not be distributed, used, or shared for any other purpose. As required by Federal and State law, BHP further agrees that no data of any kind shall be revealed, transmitted, exchanged or otherwise passed to other BHPS, vendors or interested parties. BHP shall not sell, transfer, share or process any student data for any purposes other than those listed in the MOU, including commercial advertising, marketing, or any other commercial purpose.

BHP shall establish and implement a clear data breach response plan outlining organizational policies and procedures for addressing a potential breach. BHP's response plan shall require prompt response for minimizing the risk of any further data loss and any negative consequences of the breach, including potential harm to affected individuals. A data breach is any instance in which there is an unauthorized release or access of personally identifiable information or other information not suitable for public release. This definition applies regardless of whether BHP stores and manages the data directly or through a contractor, such as a cloud service provider.

BHP shall develop a policy for the protection and storage of audit logs. The policy shall require the storing of audit logs and records on a server separate from the system that generates the audit trail. BHP must restrict access to audit logs to prevent tampering or altering of audit data. Retention of audit trails shall be based on a schedule determined after consultation with operational, technical, risk management, and legal staff.

BHP is permitted to disclose Confidential Information to its employees, authorized subcontractors, agents, consultants and auditors on a need to know basis only, provided that all such subcontractors, agents, consultants, and auditors have confidentiality obligations to BHP and the School Board. The confidentiality obligations shall survive termination of any MOU with BHP for a period of fifteen (15) years or for so long as the

information remains confidential, whichever is longer, and will insure to the benefit of the School Board.

BHP acknowledges and agrees that unauthorized disclosure or use of protected information may irreparably damage the School Board in such a way that adequate compensation could not be obtained solely in monetary damages. Accordingly, the School Board shall have the right to seek injunctive relief restraining the actual or threatened unauthorized disclosure or use of any protected information, in addition to any other remedy otherwise available (including reasonable attorney fees). BHP hereby waives the posting of a bond with respect to any action for injunctive relief. BHP further grants the School Board the right, but not the obligation, to enforce these provisions in BHP's name against any of BHP's employees, officers, board members, owners, representatives, agents, contractors, and subcontractors.

BHP agrees to comply with the requirements of La. R.S. 51:3071 *et seq.* (Louisiana Database Breach Notification Law) as well as any other applicable laws that require the notification of individuals in the event of unauthorized release of personally identifiable information or other event requiring notification. In the event of a breach of any of the BHP's security obligations or other event requiring notification under applicable law, BHP agrees to notify the School Board immediately and assume responsibility for informing all such individuals in accordance with applicable law and to indemnify, hold harmless and defend the School Board and its employees from and against any and all claims, damages, or causes of action related to the unauthorized release.

In accordance with applicable state and federal law, BHP agrees that auditors from any state, federal, or other agency shall have the option to audit BHP's service. Records pertaining to BHP services shall be made available to auditors and the School Board when requested.

- 1.14 **Equipment Provided by BHP.** BHP will provide and assume costs of all materials, equipment, and supplies in performance of services provided under this MOU.
- 1.15 **Non-Discrimination.** BHP will not discriminate against any student. All students will be treated in a manner which provides equal opportunity to services of BHP.
