

Welcome to Your Benefits

2023 DAVIS SCHOOL DISTRICT

SelectHealth Med® Network

If you live or work anywhere in Utah, SelectHealth Med is a good choice. It includes all Intermountain Healthcare facilities, clinics, and doctors, as well as key specialty facilities such as Primary Children's Hospital, the Huntsman Cancer Hospital, and Moran Eye Center. SelectHealth Med includes 42 hospitals and over 800 clinics and other facilities with nearly 12,200 providers, including specialists you can see without a referral.

Enrolled dependents who live outside of your service area (maybe they're going to college or living with another family member) can receive in-network benefits for covered services no matter where they live in the U.S. To qualify for this coverage, submit a Dependent Address Change form, which can be found at selecthealth.org/forms.

Wondering whether your current doctor is part of the SelectHealth Med network? To find out, visit selecthealth.org/findadoctor. Remember to filter your results by choosing SelectHealth Med from the network drop-down menu.

PRIMARY CARE PROVIDERS

A Primary Care Provider (PCP) sees patients for common medical problems, performs routine exams, and helps prevent or treat illness. You can trust a PCP to know your health history and help you find other doctors when you need them. If your PCP allows virtual (video) visits, you may pay less for these visits based on your benefits. Check out the "Primary Care Provider (PCP) Virtual Visits" benefit on your Member Payment Summary (MPS) to see how much you will pay.

SPECIALISTS

When you need more than your PCP, our network of quality specialists and surgeons can help.

HOSPITALS AND LOCAL CLINICS

Our facilities span Utah, offering great care and services. Think heart care, cancer treatment, transplant services, women and newborns, and much more—you name it, they can treat it.

INTERMOUNTAIN INSTACARE

What's open late and costs less than the ER? Our InstaCare and KidsCare clinics. If you need urgent care, these are great options.

INTERMOUNTAIN CONNECT CARE

Visit a provider 24/7 via live online video. Many plans cover this service at no or low out-of-pocket cost to you. Check your ID card or member materials for coverage information.

MENTAL HEALTH

You have coverage through thousands of in-network mental health providers. With your benefits, there is no reason to neglect any mental health issue. If you need help, we have you covered.

EMERGENCY CARE ANYWHERE

For emergencies go to the nearest emergency room or hospital and you'll be covered whether in the U.S. or abroad.

Tips to Keep Healthcare Costs Low

We know healthcare can be expensive, but by using the tips below, you can keep your costs lower

TIP
1

GET CARE IN THE RIGHT PLACE. Choose the most appropriate in-network location for your healthcare needs. If you're not sure where to go, call Member Advocates at **800-515-2220**. And remember, save that trip to the emergency room for true emergencies.

TIP
2

USE IMAGING CENTERS OR AMBULATORY SURGICAL CENTERS (ASCs).

Get MRIs and CT scans through imaging centers and out-patient surgeries, such as ACL repair or knee replacements, through Ambulatory Surgical Centers (ASCs). Imaging centers and ASCs (such as those found at tellica.com, intermountainhealthcare.com/surgerycenters, or on the UnitedHealthcare Options PPO network) often have lower prices and your benefits may be richer at these facilities.

TIP
3

CHOOSE VIRTUAL CARE WHEN PRACTICABLE. Check your benefits. You may pay less when you see doctors over video instead of in-person. Video visits can often meet your healthcare needs as effectively as in-person care.

TIP
4

USE GENERIC DRUGS IF POSSIBLE. Talk to your doctor and pharmacist about options for using generic drugs—they can help you get effective medication at the best price.

TIP
5

GET PREVENTIVE CARE AND STAY HEALTHY. Take time to care for yourself by adopting healthy behaviors and getting preventive care. Preventive services, covered 100% by most plans when you use in-network providers, help you stay healthy and spend less on healthcare.

TIP
6

MANAGE YOUR CHRONIC ILLNESS. The Care Management team can coordinate care and find the best way to meet your needs. Current programs include asthma, cancer, COPD, diabetes, depression, heart disease, high-risk pregnancy, mental health concerns, and substance abuse. To speak with a care manager, call **800-442-5305**.

Helping You Manage Your Health

Care managers are specially trained registered nurses who can help with managing long-term chronic diseases and provide support for recovery from surgeries and short-term illnesses. They have years of healthcare experience, with extensive knowledge about facilities, providers, and services. If you qualify for care management, a care manager will work with you and your doctor to make sure you get the most appropriate care and receive help with your benefits and claims.

In addition to one-on-one support, we provide educational materials and follow-up phone calls to help you manage your condition. Care management is available for members with the conditions, surgeries, or illnesses listed here. Please call us to learn more.

- > Stuffy and runny nose
- > Allergies
- > Sore throat
- > Eye infections
- > Cough
- > Painful urination
- > Lower back pain
- > Joint pain or strains

Virtual Care

You're covered when you see in-network providers over video

THE MY HEALTH+ VIRTUAL CLINIC IS IN YOUR NETWORK. One great option for video visits is the My Health+ app where you can self-schedule visits for urgent care, primary care, mental health, and nutritional support. The app even has an E-Visit option where you can get care via online chat. Services available through My Health+ may vary by state. Visit intermountain.com/myhealthplus for more information.

THERE ARE OTHER OPTIONS for virtual care outside of the My Health+ virtual clinic. Your in-network doctor's office may use various apps or websites for video visits. But don't worry. No matter what platform you and your doctor use, you have covered benefits for virtual care from in-network providers.

VIRTUAL CARE MAY SAVE YOU MONEY. Check your benefits. Many services that are performed over video may cost you less than visits done inside a brick-and-mortar clinic.

Preventive Care

DID YOU KNOW?

Your plan covers many procedures, services, and preventive screenings at no out-of-pocket cost to you. With 100% coverage, you can get the preventive care you need.

For services to be covered as preventive, your doctor must submit claims with preventive codes. If a preventive service identifies a condition that needs further testing or treatment, regular copays, coinsurance, or deductibles may apply. Unless otherwise indicated, these services are generally covered once every 12 months.

This information is subject to change at any time and additional limitations may apply. To verify if your service or supply is considered preventive, call Member Services at **800-538-5038**.

Know Before You Fill

Compare drug prices

Log in to your SelectHealth member account to search for covered medications, compare drug prices, and see other information about your prescriptions and benefits. Your member account also has information about any special requirements, like step therapy or preauthorization, which you and/or your doctor may need to complete before you can fill a prescription. If you ever have questions about drugs with special requirements, call Member Services at **800-538-5038**.

Save money with lower-tier drugs

The list of drugs covered by your plan will be either RxSelect[®] or RxCore[®]. Your member materials and ID card indicate which drug list you have, and searchable versions of these two drug lists are available on our website.

Your drug list will have three or four tiers of coverage and each tier corresponds to a copay or coinsurance amount (the amount you pay when you get drugs at the pharmacy). Look for generics and lower-tier alternatives to pay less for equally effective medications.

\$	Tier 1	Lowest Cost (mostly generic drugs)
\$\$	Tier 2	Higher Cost (generic and brand-name drugs)
\$\$\$	Tier 3	Highest Cost (mostly brand-name drugs)
\$\$\$\$	Tier 4	Injectable Drugs and Specialty Medications

SAVING FOR TODAY AND TOMORROW WITH A

Health Savings Account (HSA) from HealthEquity®

An HSA is a medical savings account that lets you use pre-tax contributions to pay for medical-related expenses. There are a few requirements, but it is a great way to build savings for today and for your future. Why? Because unlike a Flexible Savings Account (FSA) with more restrictions, whatever you do not spend year-to-year rolls over. To get started:

STEP 1

SELECT AN HSA-QUALIFIED HEALTH PLAN

Enroll in an HSA-qualified SelectHealth plan. These plans typically cost less than traditional plans and provide tax-saving opportunities.

STEP 2

SET UP AN HSA WITH HEALTHEQUITY

Depending on your plan you may have to work directly with HealthEquity to set up your account, or you might be able to work with your employer to set up an account. Either way, HealthEquity is easy to work with and account setup is quick and simple.

STEP 3

ADD MONEY TO YOUR HSA

Fund your HSA through pre-tax payroll deductions or transfer money into your account through the HealthEquity member portal. Your employer can help you make pre-tax payroll deductions.

To make tax-free* contributions to an HSA, the IRS requires that:

- > You are covered by an HSA-qualified health plan.
- > You have no other health coverage (such as another health plan, Medicare, military health benefits, or medical FSA).
- > You are not Medicare-eligible.
- > You cannot be claimed as a dependent on another person's tax return.

To see how you can personally benefit from an HSA, visit healthequity.com/me.

* HSAs are not taxed at the federal income tax level when used appropriately for qualified medical expenses. Also, most states recognize HSA funds as tax-free with very few exceptions. Please consult a tax advisor if you have questions.
