California Department of Education School Accountability Report Card Reported Using Data from the 2015-16 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Note: Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

Opportunities for Parental Involvement (School Year 2016-17)

Parent involvement is valuable to increase the school's understanding of who the student's are, connect student's learning to home culture, and provide an authentic audience for student's work. Parents are kept informed of their child's progress through regular classroom and principal communications. Parents participate in:

School Site Council Meetings

Parent/teacher/student conferences (at least twice a year)

Exhibitions of Student Work (at least once a year)

Family Nights (for topics such as reading, math, social studies, and science)

Bi-monthly morning Tea with the Executive Director or Director of Parent Involvement

School wide Community Nights and Performances

Healthy Families Events

Student field trips

Parent Advisory Teams (as needed)

School Safety Plan (School Year 2016-17)

New Heights Charter School has developed a comprehensive school safety plan to address the needs and resources of our school. The safety plan includes an assessment of the current status of school safety, strategies to provide a high level of safety, policies addressing dangerous situations, and procedures for staff. The school safety plan also has policies for maintaining a safe and orderly environment conducive to learning and rules and procedures for student discipline. For the upper campus, the school works collaboratively with its co-location partner, Martin Luther King Elementary School to follow the school safety plan developed by LAUSD.

Types of Services Funded (Fiscal Year 2015-16)

New Heights offers before school and afterschool programs for students. The before school program includes literacy work and breakfast. The afterschool program includes homework help, tutoring, and enrichment activities, such as sports, arts, music and dance. In 2014, 2015, and 2016, New Heights offered SES services (intervention services) for students with low test scores. Students also engage in small group support throughout the school day. During the summer, New Heights runs a 4-week Summer Program to provide academic support to low performing students.

Professional Development

Teachers participate in 15 full days of professional development each year. In addition, teachers participate in professional development for 2 hours each week. Focal areas for professional development for 2015-16: TK-8 analysis of student data to inform instruction in literacy and math, NextGen Science, oral language development, as well as math fluency and problem-solving.

Professional Development Structures

Each summer, prior to the start of the school year, all teachers participate in 10 days of professional development to build understanding of research-based curriculum materials, develop community, and focus on school wide goals.

Throughout the school year, teachers continue to engage in a three-hour block of professional development or team planning time every Tuesday during student early release time. These sessions include opportunities for teachers to participate in grade level coaching sessions, whole faculty professional development in content areas or classroom management/social-emotional development, grade band Support Study Team discussions to prepare individual students success plans, and individual and grade level planning.

The school calendar includes 5 pupil-free days during the school year for faculty to engage in professional development in the professional development focus area for the year and data analysis.

Teachers receive job-embedded professional development from the school's Literacy Coaches, Math coaches, and other content experts as needed. The coaches provide demonstration lessons, co-teaching opportunities, planning support, and teaching labs to improve teachers' instruction in reading and writing. The coaches support teachers with math instruction, English Language Learners, science, balanced literacy and classroom management.
