PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Oceanside School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

The CEO will require each building principal to maintain a Building-level Emergency Response Plan in compliance with Commissioner of Education Regulation 155.17(2). Each plan should be updated annually with the assistance of the Building Emergency Response Team (BERT). The plan shall provide for lockdown, lockout, sheltering, evacuation, early dismissal, fire and other emergency planning and notification (when necessary) to students and staff, annual drills and exercises, and coordination with local and county emergency preparedness administrators. These plans shall be submitted to the District's Safety Team for incorporation into the overall District-wide Safety and Emergency Management Plan.

3. In the event of an emergency or violent incident, the initial response at an individual school will be by the Building Emergency Response Team.
4. Once the Superintendent and/or their designee are notified, the District Emergency Response Team may be mobilized to respond, and when appropriate, local emergency officials will be notified. All will follow the emergency management protocols and practices outlined in the National Incident Management System (NIMS) and will practice Incident Command System (ICS) techniques to better manage these events.

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

INTERNAL

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible. Superintendent and Assistant Superintendent will provide onsite support; Assistant Superintendent and Director of Data, Assessment & Administrative Services will remain at District Office to handle coordination and Assistant Superintendent for Human Resources will support before/after-school matters as well as make operational-related phone calls/communications.

EXTERNAL

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of staff, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <http://www.oceansideschools.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.

RESPONSE PROTOCOLS

SCHOOL CANCELLATION

- The Superintendent or their designee will monitor any situation that may warrant a school cancellation and will make the determination to do so.
- The Director of Data, Assessment & Administrative Services will activate use of the District's mass communication system.
- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.

PROTOCOLS FOR RESPONDING TO BOMB THREATS, HOSTAGE-TAKINGS, INTRUDERS, ABDUCTION, AND OTHER EMERGENCY SITUATIONS¹⁷

The District has procedures and provides training for emergencies. Specific response steps are confidential and contained within each Building-level Emergency Response Plan. Emergencies include but are not limited to the following situations.

- Abduction
- Armed Intruders / Active Shooters
- Bomb Threats
- Cyber Security
- Early or Alternate Emergency Dismissal
- Explosions
- Fires
- Hazardous Material Incident
- Homeland Security Threats
- Hostage Situations
- Infectious Diseases
- Severe Weather
- Student-Made Threats
- Suicidal Students
- Suspicious Package Protocol
- Suspicious Persons

RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE¹⁸

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.

¹⁷ 155.17(c)(1)(xv) the identification of appropriate responses to emergencies, including protocols for responding to bomb threats, hostage-takings, intrusions and kidnappings;

¹⁸ 155.17(c)(1)(i) policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves, which for the purposes of this subdivision shall include suicide;

2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.

RESPONSES TO ACTS OF VIOLENCE¹⁹

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.
6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.
7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.²⁰
10. The district has a zero-tolerance policy for acts of school violence.

¹⁹ 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors as well as visitors to the school, including consideration of zero-tolerance policies for school violence;

²⁰ 155.17(c)(1)(iv) policies and procedures for contacting the appropriate law enforcement officials in the event of a violent incident;

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serves as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

PROTOCOLS

1. In the event of a state-ordered reduction of the District's in-person workforce, the following is a list of **essential** employees.

| Essential Position | Description |
|---|---|
| Superintendent | CEO |
| Asst Superintendents/District Wide Administrators | Leadership Team |
| Director of Facilities @ Staff | Responsible for Buildings (cleaning, sanitizing, etc) |
| Technology Staff | Responsible for ensuring technology for online remote learning is functioning |
| Food Service Staff | All applicable staff for food distribution, as needed. |
| Security Team | Director of Security and all assigned security as needed |
| District Wide Clerical Staff | |

2. The Oceanside School District will employ systems to ensure knowledge of the level of access to devices and high-speed internet students and teachers have in their places of residence.
 - All grades K-12 students and teachers will be provided a district loaned device for use at school and in their home. Specifically:
 - Grades K, 7 and 8 will maintain a 1:1 iPad model

- Grades 1-6, and 9-12 will maintain a 1:1 Chromebook model
- Under the guidance of the Director of Technology:
 - An internet access and connectivity survey for families and teachers will be designed and administered at the school building level to determine regular and unimpeded access to high-speed internet.
 - Analysis of responses to identify those in need of consistent and reliable connectivity will take place. Those in need will be provided high speed internet Altice service via MAC address or Kajeet service via MiFi devices.
- Social workers and School Counselors will reach out to vulnerable students and their families i.e. homeless, economically disadvantaged etc. to determine any technology deficits that are impeding participation in instruction and serve as liaison to the identified individual in the OSD Technology Department responsible for addressing WiFi needs. The Director of Technology will maintain all information necessary to follow up with families who were provided internet service via the district.
- It is expected that the above actions will assure that all students will have the means to participate in learning and demonstrate mastery in the remote or hybrid model.

Technology Support:

- The OSD Technology Department has established a [Technology Support Website](#) for students, staff, and families. The site contains a video library and index with video tutorials and articles to fix technology issues encountered. In addition, a live support line has been implemented and will provide students and staff access to a school building technology assistant who will answer questions or guide the individual towards remediating a technology issue.
 - In the event that we are in a remote environment, the Director of Technology will guide and monitor a repair/exchange depot out of School #6. Parents/Guardians/Staff will be invited to make an appointment to have a repair done on the devices and/or receive a loaner.
3. In order to reduce student density, Oceanside High School and Middle School will group students by “A” or “B” cohorts (Blue and White). These cohorts of students will alternately attend school resulting in 5 days of in person attendance every 2 weeks which reduces capacity by 50 percent in those buildings. Additionally:
- Teachers are encouraged to utilize the outdoor spaces as instructional spaces allowing for enhanced social distancing and opportunities for mask breaks.
 - Lockers will not be utilized to eliminate students congregating in those areas.

- Cafeterias at Oceanside Middle School and Oceanside High School will be redesigned to accommodate social distancing. Auxiliary cafeterias will be established to accommodate students.
 - Physical education classes will be held outside whenever feasible.
 - Traffic within hallways and other common areas will be redesigned in order to minimize the density of individuals. Appropriate signage and staff will redirect individuals to adequately distance and ensure safety.
 - Additional entry and exit ways will be established in each school to minimize the density at those points.
 - Visitor access will be limited to essential individuals only. All visitors will be required to complete a health screening before they enter the school building. A visitor log will be maintained in the event that contact tracing is required.
 - The district will limit parent drop-off of materials and establish a procedure for essential items.
 - Parent meetings will be conducted virtually as much as possible to limit visitation to buildings.
4. A quantity of personal protective equipment (PPE), sufficient to provide all essential employees, will be procured, stored, and managed as follows:
- The Facilities Department will maintain an inventory of PPE in accordance with NYS Education Department guidelines, and continually restock the same as needed.
 - Storage of personal protective equipment will be on campus and comply with the manufacturer’s storage recommendations for each item.
 - PPE equipment will be readily available, if needed.

The Oceanside UFSD adheres to the following NYS Education Department guidelines:

- The Oceanside UFSD is committed to creating a learning environment that protects student and staff health, safety and privacy. Our district will operate under a standard procedure for addressing situations in which an individual has tested positive for COVID-19 or appears symptomatic. These procedures include:

- Each principal will be designated as the COVID-19 Resource Person and will work closely with the school nurse and district physician.
- The district physician will serve as a resource to assist our nursing and administrative staff on critical issues.
- The district will distribute a written protocol to instruct parents to observe signs and symptoms in their children that require them to stay home from school.
- All staff members will be required to complete a daily health screening.
- Parents will be required to conduct daily health and temperature screenings of their children and periodically complete the screening protocol. Periodic reminders will be sent to parents.
- Additional communication methods will be routinely utilized to remind parents to assess students before reporting to school.
- The district will implement a written protocol developed in collaboration with the district physician and nursing staff to instruct all staff members to observe the symptoms of COVID-19.
- Protocols will be implemented to follow up on staff and students who are absent and experiencing symptoms.
- An ancillary nurse's office will be established and dedicated to students and staff experiencing symptoms consistent with COVID-19.
- The school nurse will be responsible for the supervision and care of students within both nurses' offices, and a supplementary staff member at the elementary level will be dedicated to assisting in this function.
- If a student requires a respiratory treatment, such as a nebulizer, it will be conducted utilizing enhanced protocols.
- Symptomatic individuals will be sent to the designated nurse location and will be assessed by the school nurse and sent home for a follow-up evaluation with a healthcare provider.
- Students who display symptoms will be escorted outside the school building and picked up by a responsible adult.
- The district will follow written protocols for actions to be taken if there is a confirmed case of COVID-19 in the school.
- The district will follow a Chain of Command and inform the appropriate agencies and

constituencies of confirmed cases of COVID-19.

- The district will implement mandates and recommendations for isolation of specific groups or schools based upon the directives of the Nassau County Department of Health.
- The district will assist local public health departments to trace all individuals who have had contact with a confirmed case of COVID-19.
- The district will utilize a written protocol that complies with CDC guidance for the return to school of students and staff following illness or diagnosis of confirmed cases of COVID-19.
- The district will implement a written protocol to clean and disinfect schools following CDC guidance. In the event of possible exposure in the school, the custodial staff will implement appropriate disinfection procedures.

Future Considerations

- The district will implement plans to transition to an at-home model if community factors dictate in accordance with local and state authorities.
- The district will monitor school operations and incrementally work to phase in a return to typical procedures and occupancy.

Cleaning

The district will adhere to hygiene, cleaning, and disinfection requirements from the Centers for Disease Control and Prevention (CDC) and the Department of Health (DOH) in addition to the following:

- Classroom and office spaces will be provided with appropriate cleaning /disinfection supplies for self-cleaning of shared and frequently touched surfaces.
- The custodial staff of each building will perform frequent cleaning of high touch surfaces throughout the school day, including:
 - door handles
 - rails
 - counters
 - tabletops
 - bathroom fixtures
 - trash cans
 - phones
 - cash register counters
 -
- Daily cleaning log checklists will be completed for each area of the building

- Registered disinfectants identified by the **Environmental Protection Agency (EPA)** as **effective against COVID 19** will be utilized.
- Logs will contain the following at a minimum:
 - Date of cleaning
 - Time of cleaning
 - Scope of cleaning (checkboxes)
- The head custodian of each building will be responsible for maintaining all completed cleaning logs, making sure they are completed properly, which a copy will be forwarded to the Director of Facilities on a weekly basis.
- Staff will be required to use applicable personal protective equipment to perform cleaning and disinfecting.
- If buildings are closed for seven days or more, normal routine cleaning will be performed. This is because the virus that causes COVID-19 has not been shown to survive on surfaces longer than this time.
- Cleaning and Disinfecting training will be provided to all employees (see **Training** section) including:
 - Hazards of the cleaning chemicals used in the workplace in accordance with OSHA’s Hazard Communication standard
 - Cleaning and disinfection protocol for suspected and positive cases
 - Personal Protective Equipment (PPE)
 - When to use PPE
 - What PPE is necessary
 - How to properly don (put on), use, and doff (take off) PPE
 - How to properly dispose of PPE

The terms *cleaning*, *sanitizing*, and *disinfecting* are sometimes used interchangeably, which can lead to confusion and result in cleaning procedures that are not effective^[1].

For example, if there is visible soil on a surface, *clean* it with detergent and water before spraying the surface with a sanitizer or disinfectant. Using a sanitizer or disinfectant as this “first step” is not effective because the purpose of the solution is to either *sanitize* or *disinfect*. Each term has a specific purpose, and there are many methods that may be used to achieve such purpose.

| Task | Purpose |
|-------|--|
| Clean | To remove dirt and debris by scrubbing and washing with a detergent solution and rinsing with water. The friction of cleaning removes most germs and exposes any remaining germs to the effects of a sanitizer or disinfectant used later. |

| | |
|-----------|--|
| Sanitize | To reduce germs on inanimate surfaces to levels considered safe by public health codes or regulations. |
| Disinfect | To destroy or inactivate most germs on any inanimate object, but not bacterial spores. |

Note: The term “germs” refers to bacteria, viruses, fungi, and molds that may cause infectious disease. Bacterial spores are dormant bacteria that have formed a protective shell, enabling them to survive extreme conditions for years. The spores reactivate after entry into a host (such as a person), where conditions are favorable for them to live and reproduce.^[2]

Only the U.S. Environmental Protection Agency (EPA)-registered products that have an EPA registration number on the label can make public health claims that can be relied on for reducing or destroying germs. The EPA registration label will also describe the product as a *cleaner, sanitizer, or disinfectant*. In addition, some manufacturers of *cleaning* products have developed "green cleaning products". As new environmentally-friendly cleaning products appear in the market, check to see if they are 3rd party certified by Green Seal: <http://www.greenseal.org>, UL/EcoLogic: <http://www.ecologo.org>, and/or EPA's Safer Choice: <http://www.epa.gov/saferchoice>. Use fragrance-free bleach that is EPA-registered as a sanitizing or disinfecting solution (6). If other products are used for sanitizing or disinfecting, they should also be fragrance-free and EPA-registered (7). All products must be used according to the manufacturer's instructions. The following resource may be useful: [Green Cleaning, Sanitizing, and Disinfecting: A Toolkit for Early Care and Education](#).

Employers should provide staff with hazard information, including access to and review of the Safety Data Sheets (SDS) as required by the Occupational Safety and Health Administration (OSHA), about the presence of toxic substances such as cleaning, sanitizing and disinfecting supplies in use in the facility. The SDS explains the risk of exposure to products so that appropriate precautions may be taken.

6. Essential employees use a card swipe access which has a time stamp feature allowing the district to see what time they entered specific buildings. Additionally some employees sign in and out of a daily log.
7. In the event of an emergency that required housing the District would open larger venues (OHS & OMS) for temporary shelter which provide enough space for social distancing. Furthermore the district would work with local hotels to assist essential employees in acquiring shelter if it was needed for a longer term.
8. OTHER: Any other requirements determined by the Dept of Health such as contact tracing or testing, physical distancing, hygiene and disinfectant, or mask wearing.

IDENTIFICATION OF DISTRICT RESOURCES WHICH MAY BE AVAILABLE FOR USE DURING AN EMERGENCY²¹

District resources are available in each building and stored in a central location. Each building will designate a Command Post. The list, which is not meant to be inclusive, requires the following items:

- Quick reference Emergency Management Procedures
- List of emergency telephone numbers
- Building floor plans
- Telephones
- Radio communications
- Weather radio
- Flashlights

- Computer
- Student rosters
- List of individuals with special needs and specific evacuation plans
- Telephone numbers for parents/guardians Information about emergency needs (e.g. students/staff that require medications, vehicular transportation issues, etc.)
- School and staff census information

COORDINATION AND SCHOOL DISTRICT RESOURCES AND MANPOWER DURING EMERGENCIES²²

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, that quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

SECTION V RECOVERY

CONTINUITY OF OPERATIONS

This district maintains continuity of operations at both the district and building-level to ensure that essential functions continue during an emergency and its immediate aftermath. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of instruction. Specific continuity plans are contained within each Building-level Emergency Response Plan.

CONTINUITY OF INSTRUCTION

The District offers a suite of online instructional tools that can be used to support remote instruction and communication. General instructional tools for communicating with students include online services including:

- Google Drive with shared folders
- GSuite (Docs, Sheets, Slides, Forms, Classroom, Sites)
- Gmail
- Flipgrid
- Seesaw
- Screencastify

Detailed grade-specific remote instructional procedures are contained within each building-level emergency plan.

Note: The local public Library online resources are available remotely and can be accessed by students who have a library card.

DISTRICT SUPPORT FOR BUILDINGS

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District administration in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups. The District’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

DISASTER MENTAL HEALTH SERVICES

The Assistant Superintendent for Human Resources will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. District mental health providers may be temporarily reassigned to assist in the recovery process.
